the otamatone a fun and unique electronic instrument the otamatone is an electronic instrument that requires a battery to operate the word otamatone combines the japanese otamajakushi meaning ladle or tadpole and tone referencing the instrument's shape and sound originally designed as a toy it has evolved into an instrument that even musicians can enjoy how to play 1 slide the rear volume switch to the right and set the volume to a medium level 2 press the black part of the stem with your fingertips to produce sound 3 one of the otamatone's most charming features is its fun squishy face while pressing the stem squeeze both sides of its face to open its mouth this alters the sound creating a wow effect similar to human vocals tuning your otamatone deluxe models typically start at c and go up to g sharp spanning one and a half octaves though some versions start at different notes like f to a check your instruction manual for details standard models cover a single octave from c to c because of their smaller size you don't need to slide your finger far to reach the next note use the octave switch on the back to shift to a higher or lower range digital models feature piano like keys on the stem while standard and deluxe versions have a smooth touch sensitive bar if the notes aren't labeled you can place a piece of masking tape along the stem of your otamatone and mark the spot on the stem using a tuner the free otama tuner website can help you identify pitches for beginners pre-made otamatone stickers available on amazon are a handy option keep in mind that the note positions on an otamatone can move up and down the stem this happens because things like heat humidity and low battery affect its range changing the batteries can raise the range again but you can't tune an otamatone to always

have the same note in the same spot that's why you shouldn't mark notes on the stem with a permanent marker however if you have a digital model it will always stay in tune different playing techniques push technique press the stem with your fingertips to produce a sound this is the simplest way to play and ideal for beginners sliding technique press and hold the stem while sliding your fingers up or down to change pitch this allows for smooth expressive transitions that aren't possible on traditional 12 note instruments like a piano or recorder apply firm even pressure while sliding to maintain a continuous sound vibrato technique hold a note with your thumb and shake your wrist quickly to create a trembling effect alternatively hold the otamatone's face with your thumb and middle finger then move your hands gently while pressing the stem this shakes the whole instrument for a similar effect portamento glide seamlessly from one note to another by sliding your fingers along the stem similar to playing a grass whistle wow technique for a voice like effect press a note and then squeeze the otamatone's face to open its mouth this creates a wow wow sound making it look like the otamatone is singing timing is key press the note first then open the mouth for the best effect expanding your sound if you have an otamatone neo or otamatone techno you can connect it to external devices for even more versatility use a 3.5mm stereo cable to link it to a smartphone and unlock new sounds with the otamatone studio app this app offers sound effects instrument variations guitar violin flute synthesizer even a cat's meow different musical scales rhythm settings a piano keyboard simulation for more precise playing list of songs a hunting we will go a sailor went to sea acka backa amazing grace alphabet song are you sleeping baa baa black sheep baby bumble bee bell horses bim bum biddy bobby shafto brahms lullaby chumbara cobbler mend my shoe cock a doodle doo cotton eyed joe ding dong diggidiggidong do you know the muffin man doctor foster doggie doggie fiddle dee dee five little ducks five little monkeys frog in the meadow happy birthday here we go looby loo hot cross buns humpty dumpty i like to eat apples and bananas i love little kitty it's raining itsy bitsy spider jack and jill jingle bells jolly old saint nicholas kookaburra la cucaracha lavender's blue li'l liza jane little jack horner london bridge long legged sailor mary had a little lamb michael row the boat ashore miss mary mack my hat ninety nine bottles ode to joy oh susannah oh we can play on the big bass drum old bald eagle old blue old mcdonald old mother hubbard one two three four peace like a river rain rain go away ring around the rosie row row your boat rub a dub dub see saw margery daw ten in the bed ten little fingers the baker the bear went
