this book constitutes the refereed proceedings of the 14th artificial intelligence conference sponsored by the canadian society for computational studies of intelligence ai 2001 held in ottawa canada in june 2001 the 24 revised full papers presented together with 14 posters were carefully reviewed and selected from around 70 submissions among the topics addressed are learning data mining searching multi agent systems automated deduction computational linguistics constraint programming agent learning planning classifier systems heuristics logic programming and case based reasoning

ai 2001 is the 14th in the series of artificial intelligence conferences sponsored by the canadian society for computational studies of intelligence soci et e nadienne pour l etude

de l'intelligence par ordinateur as was the case last year too the conference is being held in conjunction with the annual conferences of two other canadian societies graphics interface '91 and vision interface '91 we believe that the overall experience will be enriched by this conjunction of conferences this year is the silver anniversary of the conference the first canadian ai conference was held in 1976 at ubc during its lifetime it has attracted canadian and international papers of high quality from a variety of ai research areas all papers submitted to the conference received at least three independent reviews approximately one third were accepted for plenary presentation at the conference the best paper of the conference will be invited to appear in computational intelligence

the ai conference series is the premier event sponsored by the canadian society for the computational studies of intelligence soci t  canadienne pour l tude de l'intelligence par ordinateur attendees enjoy our typically canadian atmosphere hospitable and stimulating the canadian ai conference showcases the excellent research work done by canadians their international colleagues and others choosing to join us each spring international participation is always high this year almost 40% of the submitted papers were from non canadian researchers we accepted 24 papers and 8 poster papers from 52 full length papers submitted we also accepted eight of ten abstracts submitted to the graduate student symposium all of these accepted papers appear in this volume the canadian ai conference is the oldest continuously held national ai conference in the world eccai's predecessor aisb held meetings in 1974 but these have since become international conferences have been held biennially since 1976 and annually since 2000 ai 2002 again joined its sister canadian computer science conferences vision interface and graphics interface enriching the experience for all participants the joint meeting allows us to stay informed about other areas to make new contacts and perhaps to investigate cross disciplinary research this year the conferences were held on the beautiful campus of the university of calgary and many participants took the opportunity to tour nearby banff and the magnificent rocky mountains

rex spent a quiet christmas day he opened the parcel from his family it contained a leather fishing fly wallet from his father a knitted woolen sweater from his mother and a book titled the spell of the yukon by robert service from margorie he re read his father s letters and rested and after a big dinner in the cookhouse at midday with those station men who had not left to join their families he fished in the upper murray river until evening the cook had left after cleaning the kitchen following christmas dinner and rex had the big kitchen to himself he fried two small trout in butter for tea and ate alone enjoying his solitude in the evening without loneliness he sat quietly on the verandah of the bunkhouse listening to the water from the windmill sprinkling the orchard and to the birds roosting in the box trees that lined the homestead s driveway rex was thinking about his family and his life and he wondered when he would see them again when his odyssey would be over

this book constitutes the refereed proceedings of the 10th iberoamerican congress on pattern recognition ciarp 2005 held in havana cuba in november 2005 the 107 revised full papers presented together with 3 keynote articles were carefully reviewed and selected from more than 200 submissions the papers cover ongoing research and mathematical methods for pattern recognition image analysis and applications in such diverse areas as computer vision robotics industry health entertainment space exploration telecommunications data mining document analysis and natural language processing and recognition

inclusive college classrooms provides instructors with research based practices and tools to create an effective and inclusive classroom environment filling a visible gap in pedagogical training this important book responds to current barriers to inclusion in higher education by helping instructors improve the methods they are already using and identify new methods that could enhance their courses the inclusive approach in this book is informed by critical pedagogy universal design for learning and intersectional social justice pedagogies the authors identify practices in education that exclude historically marginalized groups and outline teaching strategies that can create more inclusive classrooms where all students can feel heard and represented this timely volume is packed full of hundreds of example lessons from across a range of disciplines tips for moving classes online questions to generate dialogue about various methods and appendices on lesson planning with this book in hand instructors can continually adapt and revise their pedagogy to be more inclusive and effective

calculus gems a collection of essays written about mathematicians and mathematics is a spin off of two appendices biographical notes and variety of additional topics found in simmons 1985 calculus book with many additions and some minor adjustments the

material will now be available in a separate softcover volume the text is suitable as a supplement for a calculus course and or a history of mathematics course the overall aim is bound up in the question what is mathematics for and in simmons answer to delight the mind and help us understand the world the essays are independent of one another allowing the instructor to pick and choose among them part a brief lives is a biographical history of mathematics from earliest times thales 625 547 bc through the late 19th century weierstrass 1815 1897 that serves to connect mathematics to the broader intellectual and social history of western civilization part b memorable mathematics is a collection of interesting topics from number theory geometry and science arranged in an order roughly corresponding to the order of most calculus courses some of these sections have a few problems for the student to solve students can gain perspective on the mathematical experience and learn some mathematics not contained in the usual courses and instructors can assign student papers and projects based on the essays the book teaches by example that mathematics is more than computation original illustrations of influential mathematicians in history and their inventions accompany the brief biographies and mathematical discussions

the classic book back in print the first half of calculus gems is a biographical history of mathematics from the earliest times to the late nineteenth century the author shows how science and mathematics in particular is something that people do and not merely a mass of observed data and abstract theory he demonstrates the profound connections that join mathematics to the history of philosophy and also to the broader intellectual and social history of western civilization the second half contains nuggets that simmons has collected from number theory geometry science etc which he has used in his mathematics classes meaning that it can be used as a supplement in a calculus course or a history of mathematics course the overall aim of this book is to answer the question what is mathematics for and with its inevitable answer to delight the mind and help us understand the world

shortlisted for the 2021 shaughnessy cohen prize for political writing in can you hear me now celina caesar chavannes digs deep into her childhood and her life as a young black woman entrepreneur and politician and shows us that effective and humane leaders grow as much from their mistakes and vulnerabilities as from their strengths celina caesar chavannes already a breaker of boundaries as a black woman in business got into politics because she wanted to make a bigger difference in the world but when she became the first black person elected to represent the federal riding of whitby ontario she hadn t really thought about the fact that ottawa wasn t designed for someone like her celina soon found herself both making waves and breaking down confronting at night alone in her ottawa apartment all the painful beauty of her childhood and her troubled early adult life she paid the price for speaking out about micro aggressions and speaking up for her community and her riding but she also felt exhilaration and empowerment as she writes this is not your typical leadership book where the person is placed in a situation and miraculously comes up with the right response for the wicked problem this is the story of me falling in love at

last with who i am and finding my voice in the unlikelyst of places both memoir and leadership book can you hear me now is a funny self aware poignant confessional and fierce look at how failing badly and screwing things up completely are truly more powerful lessons in how to conduct a life than extraordinary success they build an utter honesty with yourself and others that allows you to say things nobody else dares to say the necessary things about navigating the places that weren't built for you and holding firm to your principles and if you do that you will help build a world where inclusion is real just as celina is now trying to do in all her brilliance and boldness

perfect for understanding diseases and disorders increasing test scores in class improving scores on the nclex examination rely on over 200 full color flash cards for the most critical clinical information about common diseases and disorders color coded by body system these handy cards familiarize students with the great deal of pathophysiologic information they must master color coded body system organization supplemental categories on dermatologic conditions mental health and women's health card front the name of the condition pronunciation a clue to its meaning or significance and the icon representing the associated body system card back description of the pathophysiology assessment and diagnostic findings complications and the medical and surgical treatments memory aids on every card including keep in mind make the connection and remember charts tables and photographs throughout comprehensive alphabetical index

overview of the american bridge series the american bridge series is designed as a sequential set of bidding courses suitable for self study or classroom style study under the guidance of a professional bridge teacher volumes i through iii include declarer play and defense skills as they relate to the bidding skills taught in each text volume iv is reserved for true experts thus declarer play and defense lessons would be an insult and are not included the entire series takes about five years of study and practice to complete volume i the basic american bidding system was written for beginners and for social players who need to brush up on basic bidding skills prior to tackling modern bidding methods it features 5 card major suit opening bids strong twos and some basics of forcing and non forcing stayman blackwood gerber and few other things designed to form the framework for further study volume ii the intermediate american bidding system makes the transition to modern methods including weak two openings it teaches all of the pieces of standard american in a way that integrates all of the varied forms of same don't be thrown by the term intermediate many duplicate players think that they have reached that level when they can no longer play in novice games not so intermediate as defined by the authors can vary from folks with zero acbl masterpoints to 2500 masterpoints it's not the points that count it's the skill level volume iii the advanced american bidding system presumes a complete understanding and skill with all of the material in volume ii however some of the volume ii material is repeated for intended redundancy since the authors suspect that many folks who shouldn't be attempting to study volume iii will do so anyway after all i'm a life master i must be advanced the authors suggest that anyone not comfortable playing in flight a at an acbl regional or national tournament or the world bridge federation wbf or other governing

body equivalent thereof avoid purchase and study of volume iii until they have mastered all that is taught in volume ii volume iv the expert american bidding system not yet released presumes two years experience with the bidding techniques taught in volume iii and expert declarer play and defense skills this is not a mom and pop book it is for those who wish to successfully compete in such acbl events as flight a grand national teams the blue ribbon pairs the life master pairs the spingold vanderbilt and reisinger teams etc and international events like the bermuda bowl and venice cup the london times pairs the mccallan etc it features 4 card majors the teas responses to no trump openings weak no trumps and a variety of other bidding methods which will get bidders to the optimum place but will require expert declarer play or defensive skills to maximize results all four books emphasize sound disciplined bidding and an underlying philosophy of you bid your cards i ll bid mine we ll get to the right spot by the time students complete study and practice of volume iii they should be able to know what cards partner holds almost to the spot at the conclusion of an auction in fact jerry and one of his partners were once accused of cheating when they got cocky and did this after an auction the comment was how can you know what cards your partner holds jerry s answer isn t that the whole point of the bidding

author joni b cole worries that vlad the impaler may be a distant cousin she feuds with a dead medium she thinks or overthinks about insulting birthday cards power trips and the real reason writers hate amazon and she wishes really wishes all those well meaning people would stop talking about guatemala at once irreverent and thought provoking cole s collection is a joy ride through eclectic essays that arrives smack on that sweet spot between soul searching and social commentary between humor and heft

reprint of the original first published in 1923 the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
