this book outlines some logistical maneuvers and their doctrinal relationship to the operation and provides some new ideas the lessons are formatted in a fashion that offers the reader the doctrinal concept that the operation or function is based on and then presents new theories on how to better execute the logistical function or capability as it relates to tactical operations even though combat maneuver may be more exciting to discuss logistical maneuver is just as effective in its results to maintain combat power and isnt that the real key to successfully sustaining any decisive action

operations to maintain combat power across the battlefield and the only way to achieve this effect is to understand the different ways to execute logistical maneuver to support the mission as I have pointed out on more than one occasion you cannot have one without the other

This report documents the methodology and lessons learned in the development of the innovative tools for brigade and below staff training battle staff training system ITBBST BSTS. The ITBBST BSTS consists of functional area training support packages TSPs for individual battalion and brigade level staff officers. The TSPs combine computer based instruction CBI and text. Each TSP presents a course of instruction as CD ROM based programs and supplemental text based instruction with a training management system. Courses train commanders and staff officers in their individual combat skills to enhance their proficiency in synchronization of battlefield operating systems. The ITBBST BSTS was developed for use by the total force active and reserve and designed for use in a local area network wide area network or stand alone computer mode. An internal review and external evaluation process supported revision of each TSP. The final products included the TSPs a user's guide and a system administrator's guide DTIC

ADP 3-19 Fires, July 2019, defines and describes the fires warfighting function in terms of its major tasks, capabilities, functions, and processes and describes the integration of capabilities and their associated effects through the targeting and operations processes. The successful employment of fires depends on the integration and synchronization of all elements of fires across domains and in concert with the other warfighting functions. This manual forms the foundation for training and army education curricula on fires. The scope of this publication is broad in order to cover fires as a complete entity. It gives equal treatment to the diverse assets that contribute to the fires warfighting function. The term fires in this document includes lethal and nonlethal effects as delivered by army joint and multinational capabilities to create effects in multi-domain operations. Army leaders must consider the fires warfighting function in an inclusive manner integrating assets and effects.
