this is a report on the proposed changes to s4c s funding and governance by the department for culture media and sport dcms following the 2010 comprehensive spending review the committee says a deal over s4c s future was struck in regrettable haste by the bbc and ministers and that more detail should be given on the proposed funding and governance arrangements for the broadcaster nevertheless the committee argues that the proposed deal should result in synergies and cost savings for both broadcasters with studies estimating that s4c is responsible for sustaining over 2 000 jobs in wales and contributing 90 100 million to the welsh economy it is crucial that s4c continues to independently commission its programming from production companies based in wales rather than additional programming being supplied to the channel by the bbc under the government s proposed arrangements s4c s funding will shift from being provided by a direct grant from dcms to funding through the bbc s licence fee while it is essential that the dcms the bbc and s4c work together to achieve potential synergies and efficiencies this must not detract from s4c s independence the dcms and the bbc must guarantee s4c s funding and ensure that s4c receives in full its allocated portion of the licence fee the committee also argue for an enhanced role for the national assembly for wales in holding the s4c authority to account for its performance and for a wider review of the purpose and remit of the broadcaster

this report examines the crown estate commissioner s management of the crown property rights and interests which make up the crown estate in scotland the commissioner s operations in scotland can be split into two categories ancient possessions responsibilities and modern activities relating to the buying selling and management of property and land the evidence identified major issues particularly in relation to the seabed and the foreshore including lack of accountability lack of communication and consultation with local

communities the inappropriateness of the commissioner's remit for its responsibilities in the marine environment the cash leakage from local economies and other adverse impacts there were no such problems in relation to the management of urban and rural estate the commissioner's responsibilities for the seabed the foreshore and other ancient rights in Scotland should be devolved then decentralized as far as possible devolution to Holyrood should be conditional upon agreement between the Secretary of State for Scotland and the Scottish Government on how such a scheme of subsidiarity to local authority and local community levels should be implemented this report also sets out how different arrangements could be made for each of the Scottish Crown property rights and responsibilities further consultation should proceed on the basis of proposals set out by the Highlands and Islands Local Authorities which provides a clear framework on which to base discussion
