train your brain to be a real contrarian and outsmart the crowd beat the crowd is the real contrarian s guide to investing with comprehensive explanations of how a true contrarian investor thinks and acts and why it works more often than not bestselling author ken fisher breaks down the myths and cuts through the noise to present a clear unvarnished view of timeless market realities and the ways in which a contrarian approach to investing will outsmart the herd in true ken fisher style the book explains why the crowd often goes astray and how you can stay on track contrarians understand how headlines really affect the market and which noise and fads they should tune out beat the crowd is a primer to the contrarian strategy teaching readers simple tricks to think differently and get it right more often than not discover the limits of forecasting and how far ahead you should look learn why political controversy matter less the louder it gets resurrect long forgotten timeless tricks and truths in markets find out how the contrarian approach makes you right more often than wrong a successful investment strategy requires information preparation a little bit of brainpower and a

larger bit of luck pursuit of the mythical perfect strategy frequently lands folks in a cacophony of talking heads and twenty four hour noise but beat the crowd cuts through the mental clutter and collects the pristine pieces of actual value into a tactical approach based on going against the grain

one of today s most important national concerns is the projected bankruptcy of social security some time in the next few decades and its consequent inability to pay full benefits on time yet despite two decades of warnings about this nothing is being done the saying that social security is the third rail of american politics touch it and you die still holds true in social security false consciousness and crisis john attarian argues that the major cause of the current impasse is the misleading manner in which the program has been depicted to the public and the beliefs about social security which prevail as a result

this well crafted book probes the key dimensions of africa s existential predicament it constitutes an intellectual response to a gnawing african situation the starting point for grasping africa s social and religious quest beyond split explanations of external versus internal factors e g colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation the situation reflects a gamut of problems in traditional african religion and material culture which hitherto defines african communality politics and destinies vis à vis the cosmos and nature thus african religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity rather they operate via adaptation the communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are this study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re signifies life and wholeness as a true end of africans quest today
