this may be the most unique guitar hymnal that you ll come across each hymn has been formatted to fit on one page in such a

way that you can see all of the lyrics and the chords at the same time this means that you can sing along for the entire song and not just for the first verse as many chord books are fashioned each hymn is formatted with extra spaces to show where chord switching should occur these chord progressions have been personally created other than the hymns themselves which are all in the public domain this book is not a compilation of someone else's work but rather the result of many hours of trial and error the chords used are well known and basic for the most part the playing level is beginner to intermediate you'll find some very easy arrangements as well as some that are a bit more challenging we hope that this will be a blessing to you and your church or youth group we give all glory honor and praise to our lord and savior jesus christ who blessed us with the ability to be able to put this together blessings to you
