the introduction states that the only reason our schools haven't made astonishing progress in the last 30 years of reform is quite simple: very few schools ever implemented what is essential: the most powerful simple actions and structures that would dramatically increase the proportion of students prepared for college or careers. What is essential for schools: three simple things: reasonably coherent curriculum, what we teach, sound lessons, how we teach, and far more purposeful reading and writing in every discipline or authentic literacy integral to both what and how we teach.
