military uses in space are rapidly changing and expanding challenging both states and non governmental agencies in identifying and applying the governing rules in the midst of these challenges states policymakers and practitioners must engage with new real circumstances in space not merely hypothetical threats or problems as a contribution to the understudied but crucial field the woomera manual on the international law of military space activities and operations is interdisciplinary in nature drawing on space law national security law technology international law and diplomacy thus the woomera manual serves as the first comprehensive examination of the field in it all three phases of military space interactions are analyzed during times of peace tension or crisis and armed conflict with relevance to both the public and private space sectors utilizing meticulous research and focusing particularly on state practice it explores the interaction of different legal regimes including space law the un charter other treaty based regimes as well as international humanitarian law through an extensive consultation process with state and ngo representatives from across the globe the woomera manual serves as a practical and reliable resource in the emerging field of space law this book is a critical resource for any entity navigating the increasingly consequential subject of space operations by providing an outline for more predictable and peaceful cooperation

this book analyzes the facts and law as to nuclear weapons and the policy of deterrence it demonstrates that such weapons cannot lawfully be used and that the policy of deterrence is risky and unlawful it urges that the u s take the lead in delegitimizing these weapons and seeking abolition

this two volume work offers a comprehensive examination of the distressing topics of transnational crime and the implications for global security national security is a key concern for individual nations regions and the global community yet globalism has led to the perfusion of transnational crime such that it now poses a serious threat to the national security of governments around the world whether attention is concentrated on a particular type of transnational crime or on broader concerns of transnational crime generally the security issues related to preventing and combatting transnational crime remain of top priority concern for many governments transnational crime and global security has been carefully curated to provide students scholars professionals and consultants of criminal justice and security studies with comprehensive information about and in depth

analysis of contemporary issues in transnational crime and global security the first volume covers such core topics as cybercrime human trafficking and money laundering and also contains infrequently covered but nevertheless important topics including environmental crime the weaponization of infectious diseases and outlaw motorcycle gangs the second volume is unique in its coverage of security issues related to such topics as the return of foreign terrorist fighters using big data to reinforce security and how to focus efforts that encourage security cooperation

in 1996 the international committee of the red cross alongside a range of renowned experts embarked upon a major international study into current state practice in international humanitarian law in order to identify customary law in this area this book is the result of that study a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non international armed conflicts given that important treaties in this area have not yet been universally ratified this is a publication of major importance carried out at the express request of the international community in so doing this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts

while some have argued that neutrality has become irrelevant this volume asserts that neutrality continues to be a key concept of the law of armed conflict neutrality in contemporary international law details the rights and duties of neutral states and demonstrates how the rules of neutrality continue to apply in modern day conflicts

this monograph examines and analyses the phenomenon of non binding instruments also known as soft law in the law of armed conflict or international humanitarian law in the past 30 years there have been several non binding instruments created designed as either best practice guidelines or re statements of applicable law these instruments are not treaties but they nevertheless put themselves forward as authoritative statements of what the law is and in some instances what the law should be soft law instruments can be dynamic prompt and responsive measures to address pressing issues in armed conflicts by drawing on the skill of a small group of experts these instruments can be debated and drafted in a timelier manner than if these issues were to be left to the international community of 194 states to resolve furthermore because these instruments do not have to be sent for debate to an international conference of states it means that the provisions are not subject to the usual revisions reservations and dilutions that come with attempting to reach consensus however there are potential and actual problems with these instruments and the processes that bring them to fruition and how they are received in practice by

states and other stakeholders this volume looks at the benefits and drawbacks for states and non state actors with regards to soft law whether they are effective additions to the law of armed conflict analysing the development through the lens of theories of legitimacy and legality in international law

looks at the operations of the international space station from the perspective of the houston flight control team under the leadership of nasa s flight directors who authored the book the book provides insight into the vast amount of time and energy that these teams devote to the development planning and integration of a mission before it is executed the passion and attention to detail of the flight control team members who are always ready to step up when things do not go well is a hallmark of nasa human spaceflight operations with tremendous support from the iss program office and engineering community the flight control team has made the international space station and the programs before it a success

high unemployment has been one of the most disturbing features of the economy of the 1980s for a precedent one must look to the interwar period and in particular to the great depression of the 1930s it follows that recent years have been marked by a resurgence of interest amongst academics in interwar unemployment the debate has been contentious there is nothing like the analysis of a period which recorded rates of unemployment approaching 25 per cent to highlight the differences between competing schools of thought on the operation of labour markets along with historians economists whose objective is to better understand the causes character and consequences of contemporary unemployment and sociologists seeking to understand contemporary society s perceptions and responses to joblessness have devoted increasing attention to this historical episode like many issues in economic history this one can be approached in a variety of ways using different theoretical approaches tools of analysis and levels of disaggregation much of the recent literature on the functioning of labour markets in the depression has been macroeconomic in nature and has been limited to individual countries debates from the period itself have been revived and new questions stimulated by modern research have been opened many such studies have been narrowly focused and have failed to take into account the array of historical evidence collected and analysed by contemporaries or reconstructed and reinterpreted by historians

addresses some fundamental issues underlying the regime of belligerent occupation

undoubtedly one of the paragons of public international law in contemporary times colin warbrick is truly held in high esteem by his peers at home and abroad his breadth of knowledge is reflected in a large number of scholarly works and in

his appointment as a specialist adviser to the select committee on the constitution of the house of lords and as a consultant to both the council of europe and osce this festschrift celebrates on his retirement as barber professor of jurisprudence at birmingham university his extraordinary talent and academic career by bringing together a group of eminent judges practitioners and academics to write on international human rights international criminal justice and international order and security fields in which professor warbrick has left an indelible mark

this book provides a systematic analysis of the principle of non intervention from a historical theoretical and systematic perspective roscini argues that the principle is strictly linked to some fundamental notions of international law such as sovereignty use of force self determination and human rights protection

this volume features articles that address a range of topics arising from the ukraine russia conflict among other things the volume examines subjects associated with the battlefield status and protections afforded to combatants prisoners of war foreign fighters and civilians it also evaluates the use of particular weapons such as molotov cocktails and thermobaric munitions while also examining the conflict from the perspective of the jus ad bellum

how do international human rights and humanitarian law protect vulnerable individuals in times of peace and war provost analyses systemic similarities and differences between the two to explore how they are each built to achieve their similar goal he details the dynamics of human rights and humanitarian law revealing that each performs a task for which it is better suited than the other and that the fundamentals of each field remain partly incompatible this helps us understand why their norms succeed in some ways and fail at times spectacularly in others provost s study represents innovative and in depth research covering all relevant materials from the un icty ictr and regional organizations in europe africa and latin america this will interest academics and graduate students in international law and international relations as well as legal practitioners in related fields and ngos active in human rights
