providing an international reference work written solely by aboriginal and torres strait islander authors this book offers a powerful overview of emergent and topical research in the field of global indigenous studies it addresses current concerns of australian indigenous peoples of today and explores opportunities to develop and support the development of indigenous resilience and solidarity to create a fairer safer more inclusive future divided into three sections this book explores what futures for aboriginal and or torres strait islander peoples might look like and how institutions structures and systems can be transformed to such a future the complexity of aboriginal and torres strait island life and identity and the possibilities for australian indigenous futures and the many and varied ways in which aboriginal and torres strait islander peoples use technology and how it is transforming their lives this book documents a turning point in global indigenous history the disintermediation of indigenous voices and the promotion of opportunities for indigenous peoples to map their own futures it is a valuable resource for students and scholars of indigenous studies as well as gender and sexuality studies education studies ethnicity and identity studies and decolonising development studies

this book contributes to contemporary debates about multiculturalism and democratic theory by reflecting upon the ways in which claims about culture and identity are actually advanced by immigrants national minorities aboriginals and other groups in a number of different societies carens advocates a contextual approach to theory that explores the implications of theoretical views for actual cases reflects on the normative principles embedded in practice and takes account of the ways in which differences between societies matter he argues that this sort of contextual approach will show why the conventional liberal understanding of justice as neutrality needs to be supplemented by a conception of justice as evenhandedness and why the conventional conception of citizenship is an intellectual and moral prison from which we can be liberated by an understanding of citizenship that is more open to multiplicity and that grows out of practices we judge to be just and beneficial

this book showcases the transformative impact of aboriginal community based educators teaching local histories and cultures to preservice teachers it details the learning from country in the city teaching and research project which follows preservice teachers who participated in immersive learning from country experiences in undergraduate aboriginal education electives through to their first few years of teaching through storying aboriginal community based educator preservice and early career teacher and lecturer experiences this book demonstrates the educational and emotional impact of aboriginal truth telling processes and the significance of connecting with and learning from country for all teachers and students a visual representation of the pedagogical framework articulates this work which is designed to capture localised place based learning processes and apply these principles to diverse contexts the book presents photographs and maps of the places at the centre of this learning so educators community members and readers can visualise how they might apply this methodology to their context importantly this book positions indigenous knowledges aboriginal voices and ways of knowing being and doing front and centre asserting that this is essential foundational work needed to prepare young people for living in an ever changing world

a catalogue of a travelling exhibition of 150 archaeological and ethnographic objects owned by the canadian museum of civilization

would blaxland wentworth and lawson have ever crossed the blue mountains without the help of the local aboriginal people the invaluable role of local guides in this event is rarely recognised as silent partners aboriginal australians gave europeans their first views of iconic animals such as the koala and superb lyrebird and helped to unravel the mystery of the egg laying mammals the echidna and platypus well into the twentieth century indigenous people were routinely engaged by collectors illustrators and others with an interest in australia s animals yet this participation if admitted at all was generally barely acknowledged however when documented it was clearly significant penny olsen and lynette russell have gathered together aboriginal peoples contributions to demonstrate the crucial role they played in early australian zoology the writings of the early european naturalists clearly describe the valuable knowledge of the indigenous people of the habits of australia s bizarre to a european fauna australia s first naturalists is invaluable for those wanting to learn more about our original inhabitants contribution to the collection recognition and classification of australia s unique fauna it heightens our appreciation of the previously unrecognised complex knowledge of indigenous societies

this book examines various attempts in the west to manage cultural linguistic and religious diversity focusing on muslim minorities in predominantly non muslim societies an international panel

of contributors chart evolving national identities and social values assessing the way that both contemporary western societies and contemporary muslim minorities view themselves and respond to the challenges of diversity drawing on themes and priority subjects from islamic culture within euro asian australian and american international research they address multiple critical issues and discuss their implications for existing and future policy and practice in this area these include subjects such as gender the media citizenship and multiculturalism the insight provided by this wide ranging book will be of great use to scholars of religious studies interreligious dialogue and islamic studies as well as politics culture and migration

in this award winning book human rights specialist renée dupuis takes a fresh look at the issues surrounding canada's aboriginal people and proposes some new solutions

this book is a collection of essays that explores the various ways in which indigenous knowledge can help us to address the challenges of the 21st century the essays cover a wide range of topics from traditional ecological knowledge to indigenous perspectives on health and well being they are written by indigenous scholars activists and community leaders from around the world the book is divided into ten chapters each of which focuses on a different aspect of indigenous knowledge the first chapter provides an overview of indigenous wisdom and its relevance to the modern world the second chapter explores the diversity of indigenous perspectives and the importance of cultural sensitivity the third chapter examines the legacy of colonization and its impact on indigenous peoples the fourth chapter discusses the fight for indigenous rights and the importance of advocacy and allyship the fifth chapter explores indigenous knowledge and the environment the sixth chapter examines health and well being in indigenous communities the seventh chapter discusses the arts and creative expression the eighth chapter explores education and the indigenous experience the ninth chapter examines indigenous languages and identity the tenth chapter looks at the future of indigenous peoples and the importance of intergenerational planning this book is a valuable resource for anyone who is interested in learning more about indigenous knowledge and its potential to help us create a better world it is also a powerful reminder of the resilience and strength of indigenous peoples in a world that is increasingly divided this book is a reminder of the importance of coming together and learning from each other indigenous knowledge has much to offer us and it is time for us to listen this book is written in a clear and accessible style making it suitable for a wide audience it is an essential read for anyone who is interested in indigenous cultures environmental sustainability social justice or the future of humanity if you like this book write a review

on the occasion of the 80th birthday of rodolfo stavenhagen a distinguished mexican sociologist and professor emeritus of el colegio de mexico ursula oswald spring unam crim mexico introduces him as a pioneer on indigenous rights due to his research on human rights issues especially when he served as united nations special rapporteur on the rights of indigenous peoples first in a retrospective stavenhagen reviews his scientific and political work for the rights of indigenous peoples seven of his classic texts address seven fallacies about latin america 1965 decolonializing applied social sciences 1971 ethnodevelopment a neglected dimension in development thinking 1986 human rights and wrongs a place for anthropologists 1998 indigenous peoples and the state in latin america an ongoing debate 2000 building intercultural citizenship through education a human rights approach 2006 and making the declaration work 2006 this volume discusses the emergence of indigenous peoples as new social and political actors at the national level in numerous countries as well as on the international scene this book introduces a trilogy of briefs on rodolfo stavenhagen published in the same series pioneers in science and practice

this book explores the history culture rights and the effects of globalization on indigenous people in the americas asia pacific and africa from an evaluative and critical perspective unlike discipline based textbooks this volume seeks to contribute to the social discourse around indigenouness and to engage readers in a shared sense of humanity and empowerment for these groups of individuals among the issues addressed are who indigenous people are culture and colonization self determination the impact of legal theory and judicial decisions land rights poverty lack of healthcare international human rights law tourism treaties and globalization the book concludes by addressing what it means to be an indigenous person in the 21st century and calling upon policymakers to recognize the importance of preserving indigenous people s territories languages cultures and collective rights

the aboriginal story of burke and wills is the first major study of aboriginal associations with the burke and wills expedition of 1860 61 a main theme of the book is the contrast between the skills perceptions and knowledge of the indigenous people and those of the new arrivals and the extent to which this affected the outcome of the expedition the book offers a reinterpretation of the literature surrounding burke and wills using official correspondence expedition journals and diaries visual art and archaeological and linguistic research and then complements this with references to aboriginal oral histories and social memory it highlights the interaction of expedition members with aboriginal people and their subsequent contribution to aboriginal studies the book also considers contemporary and multi disciplinary critiques that the expedition members were on the whole deficient in bush craft especially in light of the expedition s failure to use aboriginal guides in any systematic way generously illustrated with historical photographs and line drawings the aboriginal story of burke and wills is an important resource for indigenous people burke and wills history enthusiasts and the wider community this book is the outcome of an australian research council project

a transnational history of how indigenous peoples mobilised en masse to support the war effort on the battlefields and the home fronts

the focus of this book is on the pingpu peoples in taiwan and their right to official recognition as indigenous peoples by the taiwanese government the result of centuries of colonization indigenous tribes in taiwan have faced severe cultural repression because of the government s refusal to accept ethnic racial and cultural diversity the pingpu status recognition movement is the result of a decade of activism by impassioned people seeking the right to self determination autonomy and tribal legitimacy from the han chinese controlled taiwanese government this book examines through in depth interviews questionnaires field observations and analysis of governmental and united nations documents the perspectives of those directly involved in the movement as well as those affected by indigenous status recognition study of the pingpu indigenous movement is vitally important as it publicly declares taiwanese indigenous population s humanity and collective rights and provides a more comprehensive analysis of identity based movements as a fundamental form of collective human rights claims

the canadian rangers stand sentinel in the farthest reaches of our country for more than six decades this dedicated group of citizen soldiers has quietly served as canada s eyes ears and voice in isolated coastal and northern communities drawing on official records interviews and participation in ranger exercises lackenbauer argues that the organization offers an inexpensive way for canada to show the flag from coast to coast to coast the rangers have also laid the foundation for a successful partnership between the modern state and aboriginal peoples a partnership rooted in local knowledge and crosscultural understanding

the book *Flowing Harmony Navigating the Riverine Ecosystem* delves into the intricate dynamics and rich biodiversity of river ecosystems offering a comprehensive exploration of their ecological significance and the myriad interactions that shape their existence authored by esteemed environmental scientists and ecologists this seminal work serves as a beacon illuminating the importance of rivers as lifelines of the planet the book begins by laying a foundation of understanding elucidating the fundamental components of riverine ecosystems it navigates through the diverse habitats encompassed within river systems from the headwaters to the estuaries unravelling the unique adaptations of flora and fauna that thrive in each niche through meticulous research and vivid descriptions the authors paint a vivid portrait of the interconnectedness of life along the riverbanks one of the central themes explored in the book is the intricate web of relationships that sustains river ecosystems readers are introduced to the concept of trophic cascades and the pivotal role played by keystone species in maintaining ecological balance from the predatory prowess of apex predators to the symbiotic relationships between plants and aquatic organisms every aspect of the riverine food web is meticulously discussed however *Flowing Harmony Navigating the Riverine Ecosystem* does not shy away from addressing the myriad challenges threatening the health and resilience of these vital ecosystems pollution habitat degradation overexploitation of resources and the looming spectre of climate change cast a shadow over the pristine beauty of rivers worldwide the book underscores the urgent need for concerted conservation efforts and sustainable management practices to safeguard these invaluable natural treasures for future generations furthermore the text serves as a call to action urging policymakers conservationists and the general public to recognize the intrinsic value of rivers beyond their utilitarian functions it advocates for holistic approaches to river management that prioritize ecosystem health and resilience emphasizing the interconnectedness of human well being with the vitality of river ecosystems *Flowing Harmony Navigating the Riverine Ecosystem* transcends disciplinary boundaries appealing to ecologists biologists environmentalists policymakers and anyone with a vested interest in understanding and preserving the intricate tapestry of life woven within river corridors with its blend of scientific rigor ecological insights and impassioned advocacy this book stands as a testament to the enduring beauty and importance of rivers in shaping the fabric of our planet

this open access book explores the key barriers and facilitators to advancing meaningful and fulfilling academic careers in the higher education sector for Australian Indigenous doctoral graduates it focuses on the career trajectories of Indigenous early career researchers who have participated in the Developing Indigenous Australian Early Career Researchers Study funded by the Australian Research Council arc it delves into a deeper understanding of the professional development requirements of Indigenous early career research academics and presents a new set of knowledge which incorporates Indigenous standpoints thus creating new avenues for Indigenous early career researchers to articulate their living experiences and perspectives for the benefit of their colleagues in the present and the future this book also provides a model of best practice collaborative approach through its methodology method and structural design the various chapters present first hand experience with an Indigenist methodological approach including access to respectful use of culturally appropriate terminology modelled by the authors and carefully footnoted with explanatory notes its writing is also guided by ethical principles concerning Indigenous intellectual property rights this book serves as a compendium of critique for current and future Indigenous early career researchers as well as an encouragement for mentors and advocates for equity and parity for Indigenous academics in higher education through the voices of Indigenous early career researchers this book positions universities well to facilitate improved Indigenous outcomes and to continue to pursue educational equity within the higher education sector

economy society and environment comprise the three main dimensions of sustainable development but too often they are considered separately this book by comparison examines the interaction

of the three dimensions in the context of rural systems embracing a wide range of topics including globalisation and reregulation in sustainable food production conservation and sustainability the development of sustainable rural communities and sustainable rural urban interaction an international team of geographers drawn from the international geographical union s commission on the sustainability of rural systems summarises the basis of unsustainable rural development in these topics the remedial policies being pursued and their own evaluations of the policies rather than deal just with generalisations their analyses are illustrated by detailed case studies drawn from a variety of rural systems in both developed and developing countries

traditional knowledge systems are also innovation systems this book analyses the relationship between intellectual property and indigenous innovation the contributors come from different disciplinary backgrounds including law ethnobotany and science drawing on examples from australia new zealand and the pacific islands each of the contributors explores the possibilities and limits of intellectual property when it comes to supporting innovation by indigenous people

british imperialism was almost unparalleled in its historical and geographical reach leaving a legacy of entrenched social transformation in nations and cultures in every part of the globe colonial annexation and government were based on an all encompassing system that integrated and controlled political economic social and ethnic relations and required a similar annexation and control of natural resources and nature itself colonial ideologies were expressed not only in the progressive exploitation of nature but also in the emerging discourses of conservation at the start of the 21st century the conservation of nature is of undiminished importance in post colonial societies yet the legacy of colonial thinking endures what should conservation look like today and what indeed whose ideas should it be based upon decolonizing nature explores the influence of the colonial legacy on contemporary conservation and on ideas about the relationships between people politics and nature in countries and cultures that were once part of the british empire it locates the historical development of the theory and practice of conservation at both the periphery and the centre firmly within the context of this legacy and considers its significance today it highlights the present and future challenges to conservationists of contemporary global neo colonialism the contributors to this volume include both academics and conservation practitioners they provide wide ranging and insightful perspectives on the need for and practical ways to achieve new forms of informed ethical engagement between people and nature
