in this eighth volume of essays adapted from the acclaimed blog *tardis eruditorum* you'll find a critical history of the Paul McGann and Christopher Eccleston eras of Doctor Who. *tardis eruditorum* tells the ongoing story of Doctor Who from its beginnings in the 1960s to the present day pushing beyond received wisdom and fan dogma to understand the story not just as the story of a geeky sci-fi show but as the story of an entire tradition of mystical avant-garde and politically radical British culture. It treats Doctor Who as a show that is really about everything that ever happened and everything that ever will. This volume focuses on the end of the so-called wilderness years and the series' triumphant 2005 return to television, looking at its connections with weird fiction, reality television, and the Spice Girls. The book contains a mixture of revised blog posts and a bevy of brand new essays exclusive to this collected edition, including a look at the strange continuity of the Paul McGann era, the astonishing cultural footprint of the new series, and an all-new section on the John Hurt era. Plus, you'll learn how many time wars there were, what happens when a minor tie-in work gains sentience, the metaphor at the heart of both Doctor Who and Big Brother.

Over the past half-century Doctor Who has defined science-fiction television. The women in the series, from orphans and heroic mothers to seductresses and clever teachers, flourish in their roles yet rarely surmount them. Some companions rescue the Doctor and charm viewers with their technical brilliance, while others only scream for rescue. The villainesses dazzle with their cruelty, from the Rani to Cassandra and Missy, covering all of the series' classic and new. Along with *Class*, *K9*, *Torchwood*, the *Sarah Jane Adventures*, novels, comics, and Big Finish audio adventures, this book examines the women archetypes in Doctor Who.

Sing about the past again and sing that same old song. Tell me what you know so I can tell you that you're wrong. Gallifrey, the Doctor's home planet for twenty thousand centuries, the Gallifreyans have been the most powerful race in the cosmos. They have circumnavigated infinity and eternity, harnessed science and conquered death. They are the lords of time and have used their powers carefully, but now a new force has been unleashed, one that is literally capable of anything. It is enough to give even the Time Lords nightmares. More than that, it is enough to destroy them. It is one of their own, waiting for them at the end of the universe. Featuring the Eighth Doctor as played by Paul McGann, this adventure was published to mark the thirty-fifth anniversary of Doctor Who.
