David Morrow and Anthony Weston build on Weston's acclaimed a rulebook for arguments to offer a complete textbook for a course in critical thinking or informal logic. Features of the book include homework exercises adapted from a wide range of actual arguments from newspapers, philosophical texts, literature, movies, YouTube videos, and other sources; practical advice to help students succeed when applying the rulebook's rules; suggestions for further practice that outline activities students can do by themselves or with classmates to improve their critical thinking skills; detailed instructions for in-class activities and take-home assignments designed to engage students in critical thinking; an appendix on mapping arguments, a topic not included in the rulebook that introduces students to this vital skill in evaluating or constructing complex and multi-step arguments; model responses to odd-numbered exercises including commentaries on the strengths and weaknesses of selected model responses as well as further discussion of some of the substantive intellectual, philosophical, and ethical issues raised by the exercises; the third edition of the workbook contains the entire text of the recent fifth edition of the rulebook, supplementing this core text with extensive further explanations and exercises; updated and improved homework exercises ensure that the examples continue to resonate with today's students; roughly one-third of the exercises have been replaced with updated or improved examples; a new chapter on engaging constructively in public debates, including five new sets of exercises, trains students to engage respectfully and constructively on controversial topics, an increasingly important skill in our hyper-partisan age; three new critical thinking activities offer further opportunities to practice constructive dialogue.

The latest edition of *Arguments and Arguing* contains the same balance of theory and practice, breadth of coverage, current and relevant examples, and accessible writing style that made previous editions so popular in hundreds of classrooms. The authors draw from classic and recent argumentation theory and research, contextualized with well-chosen examples to showcase a narrative style of argumentation and the values and attitudes of audiences. Readers learn how to employ both formal and informal argumentative

strategies in an array of communication forums from interpersonal interactions to academic debate to politics to business a newly added chapter on visual argumentation and a striking color photo insert demonstrate the value and power of visual elements in the construction of arguments the ability to argue is necessary if people are to solve problems resolve conflicts and evaluate alternative courses of action while many are taught that arguing is counterproductive and arguments should be avoided hollihan and baaske illustrate that arguing is an essential and fundamental human activity learning the art of effective argumentation entails a grasp of not only the strategies and principles of analysis and logical reasoning but also the importance of arguing in a positive and socially constructive fashion
