under the cultural turn and transformation the new intellectual discourses started in the 21st century to search the roots have cross cultural comparison and to see how the old traditions be used in the contemporary worldviews this book is the first attempt dealing with roots of indian geographical thoughts since its beginning in 1920 it emphasises identity of india and indianness and consciousness among dweller geographers in india development and status of geography and its recent trends gaia theory and indian context in search of cosmic integrity ecospirituality and global message towards interrelatedness hindu pilgrimages and its contemporary importance mahatma gandhi and his contribution to sustainable environmental development for global peace and humanism and new vision to see meeting grounds of the east and the west on the line of reconstruction and reconciliation in the globalising world these essays are selective and thematic therefore overall view of comprehensiveness is lacking but this book is not the end obviously it is a beginning as already other volumes in sequence and continuity are in progress at the end the lead essays representative of the three eras by spate 1956 sopher 1973 and mukerji 1992 are reprinted with a view to assessing the relevance of their challenging message even today

the imagination gap helps leaders in every sector apply their imagination effectively to explore new creative approaches to survive and thrive examples from a range of industries and settings from broadway to silicon valley with simple steps and exercises help you stop thinking the way you should and start making extraordinary things happen

this book explores and develops a new philosophical argument for the existence of god from metaphysics it focuses on exploring the pressing questions of god s existence the truth of theistic belief and its relevance in modern philosophy in doing so it bridges the discussions and debates in the field of contemporary metaphysics with that of analytic philosophy of religion at its core metaphysics is dedicated to unveiling the fundamental structure of reality playing a critical role in any intellectual endeavour in the quest for truth however a noticeable gap has persisted between today s metaphysical conversations and the debates in analytic philosophy of religion especially regarding the topic of god s existence in this book the author embarks on a rigorous exploration presenting an innovative a posteriori argument for theism rooted in the latest evidence and theories from contemporary metaphysics the first part of the book details the explanatory framework of the analysis which is focused on introducing a new abductive methodology within metaphysics that provides a way for assessing the veracity of

theism and the leading fundamental theories in contemporary metaphysics the second part of the book then focuses on demonstrating how the central concepts and theories within contemporary metaphysics such as quantum foundations four dimensionalism formal ontology essentialism grounding powerful causation mereology free will personhood and the reality of suffering are best explained by the existence of god and thus justify theism over that of the competing theories within contemporary metaphysics theism is thus the best working metaphysical theory and should take a central place in fundamental enquiries within the field of contemporary metaphysics and beyond analytic theism a philosophical investigation is a must read for scholars and advanced students venturing into philosophy of religion and metaphysics beyond its appeal to those in analytic philosophy of religion and metaphysics this work also resonates with those immersed in contemporary philosophy on a whole and related fields of inquiry serving as a pivotal read for anyone keen on the intersections of philosophy theology and science

meaning and purpose of life are perhaps the most thought about if not talked about issues on the planet since human beings have walked on earth this book is another attempt to understand the meaning and purpose of life using the ideas of vedanta in indian philosophy and of mainstream economics starting from first principles dr agarwal explores the core concept of brahman in vedanta and builds an axiomatic foundation for understanding the meaning and purpose of life using the fundamental ideas of the prasthanas and in particular of the bhagavad gita and the principal upanishads dr agarwal adheres to the philosophy of karma yoga as his chosen area of interest for the exploration of meaning and purpose which allows him to seek linkages between the concepts of social welfare in vedanta and economics ideas of lokasamgraha in indian philosophy and of externalities in economics provide a clear common ground between the two apparently disparate disciplines throughout the book he emphasizes simple practical approaches for making life more meaningful and happier while relying fundamentally on the basic ideas of vedanta

have you ever walked through a park on a sunny spring day when everyone looks like they're having a great time and thought gee i wish i were that happy have you ever perused facebook and seen a group of friends beaming into the camera and wished that your life could be as good as theirs have you ever felt like your life would be so much better if only you had more money or a boyfriend or a new car or a phd or simply a nice cold beer well my friend you are not alone ever since thomas jefferson wrote in the declaration of independence that man has the right to life liberty and the pursuit of happiness and we'll pretend that he didn't just mean rich white men the american people have made it their mission to find happiness and we aren't alone either even if it isn't written down in one of their country's most important historical documents people from pretty much every nation in the world is looking for that magic combination that will make them happy but what is the perfect recipe for happiness

and how do we define happiness to begin with
