about 5 000 years ago the first urban societies developed laying the foundations for the first civilizations nearly all civilizations share the same few features they have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading ancient egyptian culture flourished between c 5500 bce with the rise of technology as evidenced in the glass work of faience and 30 bce with the death of cleopatra vii the last ptolemaic ruler of egypt it is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land the culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as greece and rome neolithic means e new stone e even though agriculture was the crowning achievement of the period civilizations started out small agriculture at first tended to tie only small groups together these groups also all settled along rivers important as a reliable and predictable source of water as time passed families usually worked the same plot of land over successive generations leading to the concept of ownership ancient mortars and grinding tools unearthed in a large mound in the zagros mountains of iran reveal that people were grinding wheat and barley about 11 000 years ago grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples this was much further east than most sites known for early agriculture this book furnishes with utmost facility to all classes of readers the needed information on ancient civilization the unusual variety of the subject makes this a work of endless fascination

published in 1997 this volume is a collection of seminal articles on a theme of central importance in the study of transport history selected from the leading journal in the field containing articles selected by a distinguished scholar as well as an authoritative new introduction by the volume editor the book will form an essential foundation to the study of the history of shipping

a valuable primer on foreign policy a primer that concerned citizens of all political persuasions not to mention the president and his advisers could benefit from reading michiko kakutani the new york times an examination of a world increasingly defined by disorder and a united states unable to shape the world in its image from the president of the council on foreign relations things fall apart the center cannot hold the rules policies and institutions that have guided the world since world war ii have largely run their course respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate change and cyberspace meanwhile great power rivalry is returning weak states pose problems just as confounding as strong ones the united states remains the world s strongest country but american foreign policy has at times made matters worse both by what the u s has done and by what it has failed to do the middle east is in chaos asia is threatened by china s rise and a reckless north korea and europe for decades the world s most stable region is now anything but as richard haass explains the election of donald trump and the unexpected vote for brexit signals that many in modern democracies reject important aspects of globalization including borders open

to trade and immigrants in a world in disarray haass argues for an updated global operating system call it world order 2.0 that reflects the reality that power is widely distributed and that borders count for less one critical element of this adjustment will be adopting a new approach to sovereignty one that embraces its obligations and responsibilities as well as its rights and protections haass also details how the u.s. should act towards china and russia as well as in asia europe and the middle east he suggests too what the country should do to address its dysfunctional politics mounting debt and the lack of agreement on the nature of its relationship with the world a world in disarray is a wise examination one rich in history of the current world along with how we got here and what needs doing haass shows that the world cannot have stability or prosperity without the united states but that the united states cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding

an updated examination of what's weakening the u.s. economy and how to fix it the committee to destroy the world inside the plot to unleash a super crash on the global economy is a passionate and informed analysis of the struggling global economy in this masterfully conceived and executed work michael lewitt one of wall street's most respected market strategists and money managers updates his groundbreaking examination of the causes of the 2008 crisis and argues that economic and geopolitical conditions are even more unstable today his analysis arrives in time for the impending economic and geopolitical debates of the 2016 election season lewitt explains in detail how debt has now overrun the world's capacity how federal policies of the past few decades have created a downward vortex sapping growth and vitality from the american economy and how greed and corruption are preventing reform the financial crisis created tens of trillions of debt leaving investors to pay a huge price for these policy failures the highest asset inflation we've seen in our lifetimes although the government claims there isn't enough inflation more than 2 trillion of stock buybacks funded with low cost debt that are artificially inflating stock prices the federal reserve and other global central banks becoming the largest buyers of government debt in order to suppress interest rates and in a boom resulting from companies needing to find growth outside of their core businesses while the financial media misses the story lewitt pulls no punches explaining how all of these trends are leading to the brink of another crisis lewitt lays out a survival plan for the average investor to protect their assets when the debt bubble bursts the first edition of this book expressed hope that policymakers would not let the financial crisis go to waste this book urges investors to learn from the crushed hope and take action before the next crisis

climate change and ecological instability have the potential to disrupt human societies and their futures cultural social and ethical life in all societies is directed towards a future that can never be observed and never be directly acted upon and yet is always interacting with us thinking and acting towards the future involves efforts of imagination that are linked to our sense of being in the world and the ecological pressures we experience the three key ideas of this book ecologies ontologies and mythologies help us understand the ways people in many different societies attempt to predict and shape their futures each chapter places a different emphasis on the linked domains of environmental change embodied experience myth and fantasy politics technology and intellectual reflection in relation to imagined futures the diverse geographic scope of the chapters includes rural nepal the islands of the pacific ocean sweden coastal scotland north america and remote rural and urban australia this book will appeal to researchers and students in anthropology sociology environmental studies cultural studies psychology and politics
