a treasure trove of useful well organized information on sea going parenting gary cap n fatty goodlander author of buy outfit and sail choosing a boat that is right for your family handling the naysayers keeping your children safe

healthy and entertained afloat this inspirational and comprehensive guide may be just what you need to turn your dream into a reality the three authors who have each voyaged thousands of miles with children on board provide a factual and balanced look at the realities of family life on the sea from their own experience and with information from interviews with dozens of other voyaging parents they discuss caring for an infant on board handling the changing needs of children as they grow education options ensuring parents find the private time to keep their relationships in tune and helping children make the eventual transition back to shore life added to the authors voices are sidebars from other cruising parents with specialized information on subjects as diverse as handling special diets and how your children can keep in touch with friends around the world a unique bonus chapter written by a dozen former cruising kids looks at the long term effects of breaking away from shoreside normalcy a substantial appendix of resources provides valuable further information on the subjects covered in this book it is said that every parent inflicts their lifestyle choices on their children read this book to find why heading out to sea with your children may be the most rewarding infliction of all

psychology third edition builds upon the experience and reputations of phil zimbardo and ann weber with the addition of a new co author bob johnson who has a wealth of teaching experience at the community college level this briefer less expensive book presents psychology in a meaningful manageable format that focuses on the key questions and core concepts of psychology introductory psychology covers such a wide range of topics and issues that it becomes difficult for readers to see the forest for the trees to make key psychological concepts more meaningful the authors found inspiration in a classic chess study this study showed that experts did no better than novices at remembering the location of pieces on a chess board when they were placed randomly only when the patterns represented actual game situations did they make sense and therefore become more easily memorable for the experts clearly meaningful patterns are easier to remember and understand than random arrangements and psychology applies this by presenting the field of psychology in meaningful patterns to enhance comprehension these concepts are then applied to readers own lives study skills and the world around them finally psychology integrates a cross cultural and multicultural perspective to make psychology meaningful for everyone for anyone interested in introductory psychology

no sooner have they mastered the basics than students of theology can quickly find themselves in over their heads they are bombarded with claim and counter claim as soon as they want to tackle anything topical the contentious subjects tend to be the historical jesus gender and sexuality or the atonement other subjects might be less contentious but attract an astonishing excess of literature take the vast literature tackling the subject of the church for instance or the bloated body of tomes on various aspects of pneumatology this book tries to provide the bewildered and intimidated student with a primer that is at once introductory and incisive approachable and informative it will help those

training for ministry to recover their fascination for the subject of theology and how it could apply to their future ministry

reading essentials and study guide english and spanish reinforce critical concepts from the text and help students improve their reading for information skills with this essential resource written 2 3 grade levels below the student edition

a guide to reading johnny tremain written by esther forbes

reading and writing in the mathematics classroom features suggestions and activities for including reading and writing as an integral part of the mathematics curriculum it also includes suggestions for differentiated approaches to teaching mathematics for the english language learners and inclusion students

film style and the world war ii combat genre is a detailed examination of the stylistic means by which filmmakers depict stories of combat the work furthers contemporary discussions by analyzing a range of world war ii combat films to a degree of detail which has previously escaped critical attention this substantial examination of cinematography sound editing and acting in a range of movies including saving private ryan windtalkers bataan and objective burma demonstrates the importance of close attention to the textual construction of these films specifically as well as cinematic texts more generally the work advances the original analytic descriptions of controlled spontaneity and reported realism as theoretical concepts which explain why viewers regard certain stylistic techniques as realistic this notion of realism is then further understood through reference to a body of research in cognitive psychology to argue that the density of audio visual information in contemporary combat films is a significant factor in creating a sense of realism

with age appropriate inquiry centered curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them resources for teaching middle school science developed by the national science resources center nsrc is a valuable tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8 the volume describes more than 400 curriculum titles that are aligned with the national science education standards this completely new guide follows on the success of resources for teaching elementary school science the first in the nsrc series of annotated guides to hands on inquiry centered curriculum materials and other resources for science teachers the curriculum materials in the new guide are grouped in five chapters by scientific areaâ physical science life science environmental science earth and space science and multidisciplinary and applied science they are also grouped by typeâ core materials supplementary units and science activity books each annotation of curriculum
