economics has the power to make the world a better happier and safer place this book shows you how our world is in a mess the challenges of climate change inequality hunger and a global pandemic mean our way of life seems more imperilled and society more divided than ever but economics can help from parenting to organ donation housing to anti

social behaviour economics provides the tools we need to fix the biggest issues of today far from being a means to predict the stock market or enrich the elite economics provides a lens through which we can better understand how things work design clever solutions and create the conditions in which we can all flourish with a healthy dose of optimism and packed with stories of economics in everyday situations erik angner demonstrates the methods he and his fellow economists use to help improve our lives and the society in which we live he shows us that economics can be a powerful force for good awakening the possibility of a happier more just and more sustainable world

text and illustrations on lining papers

in the new 50 simple things kids can do to save the earth sophie and john have revised the original best selling book for a concerned and vibrant 20 youth market it's easy to do and kid friendly projects show that kids can make a difference and each chapter is packed with tons of links to groups and resources what makes this book stand out though is that it doesn't just inform kids it encourages them to make a difference by providing them their friends and their families the tools to take action together john and sophie enlighten educate and encourage our children with easy and smart ways to save the earth pretty darn cool huh we thought so what you can do order now and help save the only earth we've got mother earth needs our help now

tired of freaking out about climate change want to stop being an eco worrier and start being an eco warrior and do you absolutely positively love laughing then this hands on and hilarious guide to saving the world is for you written by award winning author james campbell who lives off grid and owns a compost loo find out how cow farts are wrecking the world what a fossil fuel even is and why earthships and not spaceships are the future this book will help you understand what climate change is and how on earth we can stop it together a hilarious and light hearted look at the problems facing planet earth perfect for educating and comforting children who are worried about climate change

what kind of world will our children have to deal with in the future the world bank recently released their report on climate change titled turn down the heat bringing together the results of a comprehensive research effort the report suggests that unless human beings take action to reduce their impact on mother earth the world is likely to be warmer by more than 4 degrees celsius 7.2 degrees fahrenheit in the next hundred years this will not be the end further warming of over 6 degrees celsius 10.8 degrees fahrenheit will follow in the centuries to come this book is a call to action yogi mystic and visionary sadhguru the founder of isha foundation and the massive environmental movement project greenhands outlines the role that individuals corporates and governments can play in controlling and reversing ecological degradation making it clear that when it comes to ecological work it is not somebody's work it is everybody's work sadhguru links the responsibilities of people business and governance to address the problem with both short term action as well as long term vision

brilliant a practical plan to eradicate world poverty observer would you walk past a drowning child this is a book that will change the way you think about giving it shows what you can do as an individual about the fact that more than a billion people are living in extreme poverty it argues for an urgent change in our culture and it invites you to play your part the complexities of the aid debate are well rehearsed the phrase charity begins at home is all too familiar the sheer scale of the task is overwhelming but singer who has been writing for more than three decades about how we should respond to hunger and poverty suggests that anything other than urgent and direct action is tantamount to walking by if enough people regularly give a small amount he says we can together make a significant difference find out about the life you can save

together we can make a difference today s environmental problems may seem too overwhelming for one person to tackle but you don t have to do it alone now you have partners 50 of them 50 simple things you can do to save the earth the revolutionary 1990 bestseller is back in a completely revised updated edition and it s just as innovative and groundbreaking as the original the authors have teamed up with 50 of america s top environmental groups including the natural resources defense council the national wildlife federation and rainforest action network each group has chosen one issue and provided a simple step by step program that will empower you and your family to become citizen activists in the fight to save the earth it s easy to get started just pick one fight global warming one city at a time with the sierra club s cool cities campaign roll up your sleeves and save an endangered species with the wilderness society protect coral reefs and create a marine reserve with seacology get your congregation excited about protecting god s creations with interfaith power and light invite songbirds into your neighborhood with the national audubon society all it takes is a little effort when we work together we can work miracles get started now

the interplay between violence religion and politics is a central problem for societies and has attracted the attention of important philosophers including martin heidegger jacques derrida and rené girard centuries earlier during the italian renaissance these same problems drew the interest of niccolò machiavelli in not even a god can save us now brian harding argues that machiavelli s work anticipates and often illuminates contemporary theories on the place of violence in our lives while remaining cognizant of the historical and cultural context of machiavelli s writings harding develops machiavelli s accounts of sacrifice truth religion and violence and places them in conversation with those of more contemporary thinkers including in depth discussions of machiavelli s works the prince and discourses on livy as well as his florentine histories the art of war and other less widely discussed works harding interprets machiavelli as endorsing sacrificial violence that founds or preserves a state while censuring other forms of violence this reading clarifies a number of obscure themes in machiavelli s writings and demonstrates how similar themes are at work in the thought of recent phenomenologists the first book to approach both machiavellian and contemporary continental thought in this way not even a god can save us now is a highly original and provocative approach to both the history of philosophy and to contemporary

debates about violence religion and politics

this book presents a salient truth every investor no matter how large or small has the power to help address our climate crisis and build a more sustainable world together we can and must act now al gore former vice president of the united states everyone s savings account and pension can meaningfully contribute ross tells us how in this clear easy to understand yet transformative book christiana figueres founding partner global optimism and former executive secretary united nations framework convention on climate change i can t imagine a more important book at the moment a detailed action oriented guide on how to make our money matter and save us and the planet we live on richard curtis writer director co founder of red nose day and un sustainable development goals advocate investing responsibly is one of the most powerful ways that you can fight climate change no longer a niche sector for rebel fund managers conscious investing has the potential to raise huge sums of money to the companies and organisations on the front line fighting the climate crisis and make investors positive returns in the process in this essential introduction to green investing alice ross shows you how you can turn your savings and pensions however big or small into a force for change you will learn which sectors are leading the charge by developing cutting edge solutions from smart farming to renewable energy how to cut through alphabet soup jargon and identify greenwashing the ways you can maximise your economic power and hold those you re investing in to account changing the way that we invest is one of the most powerful levers we have for solving climate change this hugely interesting and immensely practical book not only explains why changing how we invest is so critically important but also provides a set of powerful tools for actually doing it rebecca henderson john and natty mcarthur university professor at harvard university and author of reimagining capitalism explains the power you have through your investment choices to accelerate the path toward a sustainable clean energy future read this book and be empowered to create a better future for the planet michael mann distinguished professor penn state university author of the new climate war

big cities don t have to mean a dystopian future they can be turned around to be powerhouses of well being and environmental sustainability if we empower women this book is a unique collaboration between c40 and friends of the earth showcasing pioneering city mayors key voices in the environmental and feminist movements and academics the essays collectively demonstrate both the need for women s empowerment for climate action and the powerful change it can bring a rallying call for the planet for women for everyone

in this document i share with you my recent discovery in taoist sources about how women lose their vital essence which is different to men and how they can save it to create an immortal embryo the christ seed an article is much more detailed than the video there is very important information for men too but it s only entry level thus directed at those who never heard of the information of saving christ seed

willa triston loves three things music her only friend poppy and the earth these passions are put on hold and her reclusive life is shattered after she sees a strange flickering light from her window her lack of impulse control forces her to investigate it but the night turns dangerous and a series of bad decisions bring her to the attention of sheriff rome pendleton when clearing up a misunderstanding creates more problems and rome s department becomes understaffed willa gets wrapped up in the case helping at his side at first it seems easy enough to balance her studies the mystery and rome s persistent flirtation that is until she finds there s a bit more to the story than everyone initially thought now she realises it might not just be her in danger but maybe her whole world

some people say i just can t save money while others have saving accounts full to the brim what is the mindset that makes some people save and while others just can t do it how to convert from a person who can t save to have a saving account you can boast off saving money is just as much part of your personality as anything else you are either a personality type that can save money or you can t the good news is that this part of your personality can be retrained and you can slowly but surely make saving money a part of your daily routine the brain is like any other body part and has to be trained to become good at anything for example you do not lose weight the day you start dieting or you do not learn to drive a car in the first lesson the key to getting started is small and altering a very important mindset it is not about making huge savings all the time but simply adopting a small principle that every little adds up this one principle is the most important aspect of getting into a habit of saving money looking for that 100 to put in you saving account will not do the trick especially if you are not a money saver making a habit of small 1 savings or any amount for that matter will help you slowly build a habit which would transform into a bigger lump sum over a period you have to train your brain hence altering your personality to make saving a habit and like anything else in life you have to start small learn from your mistakes and persevere to make saving a habit and part of your personality leading to fruitful results

a highly practical and visual approach to the previous cambridge igcse ict syllabus first examination in 2016 that develops students confidence step by step it has been written to build confidence for both the practical and written assessments ensure extensive exam preparation with stephen doyle who has over 30 years experience of teaching examining and assessing ict at all levels his practical approach is trusted by teachers around the world to support achievement to strengthen students assessment potential interactive tests are included via online access this edition of complete ict is available as a print book an online book or a print and online package so you can choose the format that is right for you

an introduction to political and social data analysis with r provides students with an accessible overview of practical data analysis while also providing a gentle introduction to r by starting with statistics first and using just enough r code to generate results this text helps students focus on learning how to do data analysis while slowly gaining confidence in using r as they progress through the material this book is structured around learning by doing students can follow along in each chapter by reading about statistics and their

applications in R and then running the R code on their own as they work through contemporary political science and social science examples. Author Thomas M. Holbrook patiently explains each step in the process, avoiding overly complicated jargon and commands. Exercises at the end of chapters feature both conceptual and calculation-based questions so students can check their understanding of data analysis and practice using R. At the end of the semester, students can confidently add skills in data analysis with R to their resumes.
