this book provides an insider's account of how macroeconomic policies in the united states japan and major european countries were carried out and how the oecd and the author either as its senior official or a japanese central banker dealt with international trade issues protectionism globalisation regional integration and other related issues since the 1960s employing an informal tone the author offers a critical review of the successes and failures of the economic policies followed by these countries in the international setting which prevailed during this period this book will interest economists international businesspersons journalists and historians

proceedings of a seminar held in new delhi india in 1997 during the 51st congress of the international fiscal association panel discussion centred on two aspects of the definition of permanent establishments whether and when the provision of services may constitute a permanent establishment and which is the influence of the communications revolution on the permanent establishment concept

in this book one of europe's foremost sociologists offers a profound and accessible overview of the trajectory of european societies east and west since the end of world war ii combining theoretical depth with factual analysis göran therborn addresses the questions that underpin an understanding of the nature of european modernity including to what extent is the period 1945 2000 producing fundamental change and what are the areas of continuity have the societies of europe become more similar to others on the globe or more distinctively european what are the prospects of europe after decades of postwar change and the end of the cold war issues covered include the division of paid and unpaid labour patterns of rights in different social spheres the development of mass consumption the evolution of risks the spatial range of economic and cultural change collective memory and identities the geography of happiness and modes of collective action the author relates these issues to the two great social steering projects of the period socialism in the east and the european union in the west

proceedings of a seminar held in geneva in 1996 during the 50th congress of the ifa international fiscal association

this book contains 20 essays on macroeconomics

this report reviews a number of hybrid technologies that can be deployed to defossilise economic sectors and sets out policy options to bring these technologies to commercial scale

this publication presents analysis on various questions concerning the climate change debate

this book examines the impact of oecd country policies on east asia in such areas as trade investment environment agriculture finance and aid as well as on macroeconomic policies and regional co operation it also examines the coherence lessons of these oecd country policies

aid alone cannot finance development bringing in fresh sources of finance is essential this book assesses the changing landscape of international development finance from a global and and developing country perspective and provides recommendations on innovative policy mechanisms

disentangling the concept of equality in schools can be a tricky task for those in senior middle or classroom leadership this book will unpack ideas of equality equity diversity and social justice providing practitioners and those training to teach with an understanding of equality in order to address educational values and practice drawing on a wide range of case studies from schools in england wales and scotland the authors illustrate the importance of leading for equality with a clear and proactive vision for change the authors explore these key areas socio economic class gender sexuality ethnicity religion migrant children special learning needs and disabilities this book will serve as a handy guide for postgraduate and undergraduate students on education leadership and inclusive education courses

climate change and its adverse impacts on nature and human society are clearly felt who should bear the responsibility should anyone be held liable for grave losses and damages related to climate change in what way and to what extent can these issues be addressed in legal mechanisms both globally and locally will an international liability regime an ultimate solution are courts ready for and capable of resolving these disputes that find intricacy of law policy and science to shed light on these issues this book is structured with four main themes on the discussions of climate change liability and related mechanisms they are 1 state liability and responsibility 2 climate change litigation 3 climate change liability and alternatives and 4 dispute resolution and remedies reflections on the concepts of liability responsibly accountability have provided for nuanced understandings of their functional dynamics in climate change governance our findings also suggest that international and domestic courts have become a vital player in attribution or distribution of climate change liability in addition to formalistic rights discourse and rigid liability regime a few alternatives such as carbon market insurance mediation or soft law are also finding their ways to ensuring sustainability of climate change governance

summary takes steps to demystify complex global economic issues offers the background to events both current and historical helping to clarify today's news headlines as well as chapters in history books

publisher description
