a theoretical account of moral revolutions illustrated by historical cases that include the criminalization and decriminalization of abortion and the patient rebellion against medical paternalism we live in an age of moral revolutions in which the once morally outrageous has become morally acceptable and the formerly acceptable is now regarded as reprehensible attitudes toward same sex love for example and the proper role of women have undergone paradigm shifts over the last several decades in this book robert baker argues that these inversions are the product of moral revolutions that follow a pattern similar to that of the scientific revolutions analyzed by thomas kuhn in his influential book the structure of scientific revolutions after laying out the theoretical terrain baker develops his argument with examples of moral reversals from the recent and distant past he describes the revolution led by the utilitarian philosopher jeremy bentham that transformed the postmortem dissection of human bodies from punitive desecration to civic virtue the criminalization of abortion in the nineteenth century and its decriminalization in the twentieth century and the invention of a new bioethics paradigm in the 1970s and 1980s supporting a patient led rebellion against medical paternalism finally baker reflects on moral relativism arguing that the acceptance of absolute moral truths denies us the diversity of moral perspectives that permit us to alter our morality in response to changing environments

beta the world as i measure it is a deeply personal reflection from the author behind a series of celebrated works this autobiography charts the life journey that influenced the creation of those books offering a unique glimpse into the major events and thoughts that shaped the author s intellectual path however it is not a companion or guide to their published works instead this narrative stands apart sharing the milestones and experiences that led to the development of the ideas readers will find within the books themselves for those interested in the mind behind the words this is a revealing and thoughtful chronicle

this vitally important book attempts to move beyond the current death denying culture the use of euphemistic and defiant phrases when dealing with terminal disease such as she lost her battle with cancer was more appropriate when medical doctors could do little to prolong life but treatments and technologies have significantly changed now life prolonging interventions have outpaced our willingness to use medical intervention to secure patient control over death and dying we now face a new question when is it morally appropriate for medical intervention to hasten the dying process lipuma and demarco answer by endorsing expanded options for dying patients unwanted aggressive treatment regimens and protocols which reject hastening death should be replaced by a patient s moral right in carefully defined circumstances to hasten death by means of medical intervention expanded options range from patient directed continuous sedation without hydration to physician assisted suicide for those with progressive degenerative disorders such as alzheimer s the authors overriding goal is to humanize the dying process by expanding patient centered autonomous control

in recent years there has been a growing interest in the ideas surrounding reflective practice specifically in the areas of learning in management development and education this interest has developed in a growing number of professional fields thus making for very diverse understandings of what can be regarded as complex approaches to learning in order to understand how reflective practice can support and aid learning it is helpful to acknowledge how we learn first all learners start from their own position of knowledge and have their own set of experiences to draw upon second learning is contextual something which managers need to acknowledge to make sense and achieve a deep understanding of material and experiences one needs to relate new information to existing knowledge and experiences this is best achieved through a process of reflection indeed the underlying rationale for the chapters in this publication is to explore how the role of practice reflection and critical reflection are understood and developed within a learning process which is

supported through the application of reflective tools this book recognises and makes explicit the diverse yet inclusive nature of the field by including a range of contributions from both subject specific disciplines and professional contexts it seeks to enable the reader in documenting some of the current uses of reflection and critical reflection while also illustrating some of the newer methods in use as well as the current contributions to thinking in the subject domain through this publication the editor and authors hope to provide a basis from which continuing professional development and education can be enhanced this book was originally published as a special issue of reflective practice international and multidisciplinary perspectives
