in the uk women s economic empowerment through employment is a success story of the last three decades and yet women are over represented in low paid insecure jobs are under represented in top jobs and earn less than men on average with a marked income gap over the lifecourse when labour took office in 1997 a new wave of women mps entered parliament in record numbers and women gained access to ministerial roles including a newly created minister for women however policy on women and employment remained an area of conflict new rights were secured particularly for mothers but when labour left office a sizeable policy agenda remained unfinished using documentary evidence and interviews from leading policy actors from the period women and employment in public policy takes as its starting point the women and work commission which was convened in 2004 to examine causes of the gender pay gap the commission was unable to defuse conflicts over equal pay but it set out an agenda for change at the level of government private sector work organizations and public sector organizations milner examines why the commission could not resolve key conflicts and why its broad based recommendations were only partially taken up she traces the subsequent development of policy observing well established preferences for light touch regulation which can raise awareness but leave entrenched practices unchallenged and weaken individual women s access to redress detailed study of the working of the commission provides lessons on the policy process particularly for those seeking to influence policy it also shows that within the wider policy space opportunities for action to effect change are possible based on appeals to instrumental logic or political exchange but are constrained by party leadership

the history of american education is replete with educational reform and to a lesser extent educational dissent consider the present you have various forms of privatization school choice the no child left behind act home schooling value added accountability alternative teacher preparation programs on line instruction etc this range of activity is not exceptional for instance consider the past progressive education open education the junior high school the middle school life adjustment education career education vocational education the comprehensive high school school to work year round schooling behavioral objectives proficiency exams high stakes testing whole language learning packages and self paced instruction modular scheduling site based management all presented as the

way to reform american schools at least in part then you have the reformers themselves such as john dewey george counts herbert kohl john holt charles silberman admiral hyman rickover james bryant conant all the way back to horace mann himself dissenters and dissenting movements while not as numerous and certainly not as well known in educational circles count the various faith based schools and individuals such as archbishop hughes of new york clearly this is an area rich in ideas rife with controversy and vital in its outcome for individuals and the nation as a whole and yet strangely enough there exists no major encyclopedia bringing the varied strands together in one place as a ready reference for scholars teachers school administrators and students studying to enter the educational profession this two volume work is intended to be that authoritative resource key themes and topics include biographies of reformers and dissenters theoretical and ideological perspectives key programs and legislation judicial verdicts impacting educational change in america the politics and processes of educational reform and policy making dissent and resistance to reform technology s impact on educational reform a reader s guide in the front matter groups entries around such themes to help readers find related entries more easily
