from 1963 to 1981 horst h geerken lived in the new born republic of indonesia at a time of upheaval after the end of almost 350 years of colonial rule and exploitation by the netherlands in both his professional and private activities he constantly came across german japanese and indonesian eyewitnesses who had lived through the japanese occupation and the presence of the german navy in indonesia the relations between the german reich and what was then the dutch east indies were obviously closer and more varied than had been previously assumed hardly anyone was aware that hitler was extremely interested in this distant archipelago and that thousands of german officers and seamen were in action in east and south east asia who knows that german u boats and auxiliary cruisers penetrated deep into the pacific and that the german navy used the kerguelen islands in the south polar sea as a secret base or that hitler gave massive support to the independence movements in indonesia and india many of the german naval personnel chose to make indonesia their home after the war and joined the indonesian freedom fighters the second world war heralded the end of the colonial era in asia especially in south east asia the role played in this process by the third reich should not be underestimated the collaboration between the axis powers especially that between german and japan with all its problems is also investigated there was a lively exchange of new weapons technology there was even the re creation of a german radar system in japan under the management of a german engineer documents from the third reich's foreign ministry published here for the first time show how brutally and inhumanely the german men women and children in the dutch internment camps in the east indies were treated by their captors these documents are supported by evidence from contemporary witnesses the author has encapsulated his many years of research in the two volumes of hitler's asian adventure it is a fascinating documentation of the german navy's involvement in a theatre of war that has until now been neglected by historians

in this brilliant strikingly original book historian john lukacs delves to the core of adolf hitler s life and mind by examining him through the lenses of his surprisingly diverse biographers since 1945 there have been more than one hundred biographies of hitler and countless other books on him and the third reich what happens when so many people reinterpret the life of a single individual dangerously the cumulative portrait that begins to emerge can suggest the face of a mythic antihero whose crimes and errors blur behind an aura of power and conquest by reversing the process by making hitler s biographers rather than hitler himself the subject of inquiry lukacs reveals the contradictions that take us back to the true hitler of history like an attorney lukacs puts the biographies on trial he gives a

masterly account of all the major works and of the personalities methods and careers of the biographers one cannot separate the historian from his history particularly in this arena he looks at what is still not known and probably never will be about hitler he considers various crucial aspects of the real hitler and he shows how different biographers have either advanced our understanding or gone off track by singling out those who have been involved in or co opted into an implicit rehabilitation of hitler lukacs draws powerful conclusions about hitler s essential differences from other monsters of history such as napoleon mussolini and stalin and equally important about hitler s place in the history of this century and of the world
