the sources content and fate of the 15th century allegorical fable *visión deleytable* are examined from three angles as a medieval compendium of religious philosophy as a major influence in spanish literature and as an invaluable historical source on jewish christian interactions in medieval spain the volume is divided into three sections the first part considers *visión s* didacticism within the jewish and christian frames of education in 15th century spain the second part includes a review of *visión s* philosophical content as a comprehensive articulation of a rationalist *weltanschauung* the final section traces its intriguing editorial fate and literary influence through the 17th century in spain italy and the netherlands it is *visión s* first systematic study from the dual perspective of a hispanist and a hebraist

clara e rodríguez as is befitting a book on latinas os at the start of the 21st century the chapters in this volume reflect the contemporary panorama of latinas os in the united states today latinas os are the largest minority group they accounted for 12.5 of the total u s population in the last decennial census recent estimates show the hispanic population to be 41.3 million as of july 1, 2004 or 14 of the nation s total population however this estimate does not include the 3.9 million residents of puerto rico who are also u s citizens and would raise the total to 24.52 million this would make the u s population of latinos the second largest spanish origin population

in the hemisphere after mexico the growth of this population since 1980 has been dramatic hispanics latinos grew more than seven times faster than the population of the nation as a whole increasing by half whereas the white non hispanic population increased by only 6 between 1980 and 1990 u s bureau of the census 1991 table 1 u s bureau of the census 1993 p 2 in the 1990s the hispanic population increased 58 moreover between 2003 and 2004 one of every two people added to 3 the nation s population was hispanic latino consequently not only are latinos a substantial part of the u s population but they account for half its population growth

the idea of a dialogue sometimes harmonious sometimes divisive between the centre and periphery of the early modern european state stands at the heart of much of john elliott s historical writing it is the fulcrum around which his imperial spain revolves and it lies at the heart of his analysis of the causes of the revolt of the catalans against the centralising policies of the madrid government his writings on the americas such as the old world and the new likewise stressed the relationship between centre and periphery this collection of essays by a group of elliott s former students examines different aspects of this important theme and develops them taken together with the personal appreciation of elliott regius professor of modern history at oxford it forms an important examination of the work of the greatest living historian of spain as well as a major contribution to early modern european history

the lives of toledan jewish families are traced from the time of the inquisition through seventeenth century spain

this work develops the trigonometric functions using a unit circle approach and shows how it leads to the right triangle approach graphing techniques are emphasized including a discussion of polar co ordinates parametric equations and conics using polar co ordinates

from 1750 to 1800 a critical period that saw the american revolution french revolution and haitian revolution the atlantic world experienced a series of environmental crises including more frequent and severe hurricanes and extended drought drawing on historical climatology environmental history and cuban and american colonial history sherry johnson innovatively integrates the region s experience with extreme weather events and patterns into the history of the spanish caribbean and the atlantic world by superimposing this history of natural disasters over the conventional timeline of sociopolitical and economic events in caribbean colonial history johnson presents an alternative analysis in which some of the signal events of the age of revolution are seen as consequences of ecological crisis and of the resulting measures for disaster relief for example johnson finds that the general adoption in 1778 of free trade in the americas was catalyzed by recognition of the harsh realities of food scarcity and the needs of local colonists reeling from a series of natural disasters weather induced environmental crises and slow responses from imperial authorities johnson argues played an inextricable and until now largely unacknowledged role in the rise of revolutionary sentiments in the eighteenth century caribbean

examines the life and poetry of magda portal a major figure in latin american revolutionary politics includes a selection of poems available for the first time in english translation provided by publisher
