this book offers a new approach to thinking about liberty in the wake of decades of criticism of liberalism from feminists communitarians conservatives alike

marketing real people real choices brings you and your students into the world of marketing through the use of real companies and the real life marketing issues that they have faced in recent times the authors explain core concepts and theories in marketing while allowing the reader to search for the information and then apply it to their own experiences as a consumer so that they can develop a deeper understanding of how marketing is used every day of the week in every country of the world the new third edition is enhanced by a strong focus on value creation and deeper coverage of modern marketing communications practices

sample text

managerial decision making during the lifetime of a project can have important implications on project handling and its contribution to shareholder value traditional capital budgeting methods in particular methods based on net present value fail to capture the role of managerial degrees of freedom and therefore tend to lead to a systematic undervaluation of the project in contrast the real options approach to investment analysis characterizes decision making flexibility in terms of real option rights which can be evaluated analogously to financial options using contingent claims pricing techniques widely used in capital markets the research carried out by Marcus Schulmerich analyzes real options for a constant and stochastic interest rates versus constant interest rates analyzing stochastic interest rates in the context of real options valuation is of particular relevance given their long time to maturity which makes them more vulnerable to interest rate risk than short term financial options to date there has not been a comprehensive review of this issue in the academic literature the fact that interest rates have fluctuated widely over the recent years further highlights the need for studying this issue

Mun demystifies real options analysis and delivers a powerful pragmatic guide for decision makers and practitioners alike finally there is a book that equips professionals to easily recognize value and seize real options in the world around them Jim Schreckengast senior vp r d strategy Gemplus International SA France completely revised and updated to meet the challenges of today's dynamic business environment real options analysis second edition offers you a fresh look at evaluating capital investment strategies by taking the strategic decision making process into consideration this comprehensive guide provides both a qualitative and quantitative description of real options the methods used in solving real options why and when they are used and the applicability of these methods in decision making

This important book chronicles responds to and advances the leading theories in the public relations discipline taking up the work begun by the books public relations theory and public relations theory ii this volume offers completely original material reflecting public relations as practiced today it features contributions by leading public relations researchers from around the world who write about new developments in the field important subjects include a turn to more humanistic social dialogic and cocreational perspectives on public relations changes in the capacity and use of new information technologies a greater emphasis on non western international and intercultural public relations that considers an increasingly politically polarized culture and issues of ethics that look beyond how clients and the traditional mass media are treated and into much broader questions of voice agency race identity and the economic and political status of publics this book is a touchstone for advanced undergraduate and graduate courses in public relations theory and a key reference for researchers

this book offers a broad perspective on the field of cognitive engineering and neuroergonomics covering emerging practices and future trends toward the harmonious integration of human operators and computer systems it presents novel theoretical findings on mental workload and stress activity theory human reliability error and risk and neuroergonomic measures alike together with a wealth of cutting edge applications further the book describes key advances in our understanding of cognitive processes including mechanisms of perception memory reasoning and motor response with a special emphasis on their role in interactions between humans and other

elements of computer based systems based on the ahfe 2019 affiliated conference on neuroergonomics and cognitive engineering held on july 24 28 2019 in washington d c usa it provides readers with a comprehensive overview of the current challenges in cognitive computing and factors influencing human performance

culinary taste consumer behaviour in the international restaurant sector looks at the factors that influence our culinary tastes and dining behaviour illustrating how they can translate into successful business in industry with a foreword from prue leith restaurateur author teacher and prolific cookery writer and novelist and a list of well known and respected international contributors from the uk france australia and hong kong this text discusses the issues involved from a multitude of angles

harness the power of real options real options theory is based on the nobel prize winning work on financial options and has captured the interest of executives managers and investors who need to understand the future profitability of an asset originally developed to value technology initiatives and companies the method is now being applied broadly across various businesses and industries the real options solution offers comprehensive coverage of the real options approach with a five step framework and examples for applying the author s unique total value model based on real options analysis this approach will help executives and investors minimize the risk of committing to new ventures and delivers a framework flexible enough to apply to business initiatives in all types of companies

are you having the success you want with women have you ever said the right things but notice that your potential lover is thinking of someone else are you your own worst enemy a better you man s guide to successful dating will give you the necessary tools and the mentality for improved lasting relationships with the opposite sex this book will lay out how to create an authentic persona and mindset that will allow you to get exactly what you deserve and especially what you want in order to create a better you

this book provides comprehensive and above all business focused guidance on the fundamentals of business law and how they should be integrated into ethical and effective business decisions it concentrates on legal principles and thereby is able to articulate the impact of global business law and its international applications providing a comprehensive overview of the legal and ethical principles which both facilitate and regulate corporate business this is an ambitious undertaking yet arguably no more ambitious than the projects undertaken by global business leaders making business decisions around the world the author combines the expertise of a long term blue chip law background with the insights of an experienced business educator law and ethics in global business is both a comprehensive course book for mba study and an invaluable business reference source for any executive involved in global business

changes is a three level general english course for adult and young adult learners changes ensures that students have every opportunity to develop confident communicative ability as well as accuracy in english

publisher description

terms such as third world developing countries and global south are ubiquitous in the discipline of development studies but they are often poorly defined ideologically weighted and misleading taking an intellectual history approach this book examines the most commonly used spatial terms in the language of development tracing their origins meanings evolution and processes of popularisation and demonstrating how geographical political and economic concepts were used or misused in creating these terms the book looks at the origins and the changing nature of fundamental development divisions from prehistoric times to the present day and analyses the process of conceptualising the contemporary north south divide focusing especially on the start of spatial development terminology in the twentieth century it uses detailed maps to assist the reader in visualising the geographical complexities of these spatial terms and discusses more recently developed terms such as emerging markets and bric which are key to understanding the modern world this book provides a valuable resource for students and researchers in development studies international relations geography sociology and anthropology as well as practitioners in the field of development
