the apostle paul's experience was real the blinding light and the voice confronting him with the question saul saul why persecutest thou me his response is the same question we should be asking who art thou lord paul thought he knew god but he didn't god wants us to ask this same important question god has revealed himself in the scripture through his son jesus the light of the world it is the gospel the good news of jesus's ministry the truth about god it is the substance of our faith in him our salvation and the subject of this book

this book started out as an intense personal study by the author to evaluate and confirm his beliefs about god and salvation in regard to the teaching of the seventh day adventist church why is it that so many seventh day adventists do not have the assurance of salvation what criteria in the bible and what specifically in ellen g white's writings might lead someone to believe they were not fit for heaven that they did not qualify to be there that god would not forgive them and there was more required than just relying on jesus's sacrifice to cover their sins if they did not meet a strict set of rules would god cast them aside in the end in this book you will find out just who are the saved who are the lost and what happens to them in the end and what end times will look like according to ellen g white and the sda church the author estimates he has spent well in excess of ten thousand hours and has read over fifteen thousand pages of material over a seven year period in the preparation of this book it is the author's hope and prayer that this book will make the reader question not their belief in the saving grace of god and the loving sacrifice of jesus but rather question anything that might have come between them and that grace

the creation story has been hijacked the subtle deceptions of the serpent have caused skeptics and even believers to look upon the opening chapters of genesis with a cynical eye as a result many believe that earth is a cosmic accident and that humanity is merely a product of time matter and chance however derrick mccarson counters the critics of the bible with powerful new evidence from the world of astronomy microbiology and physics which all point to the undeniable fact that we are here by divine design in origins you will be challenged with fascinating information

that confirms genesis 1:1 and following content includes deep space discoveries which reveal the first moments of creation wonders of the universe which point to a super intelligent creator the reason why evil and suffering entered the world and the language of god the amazing ingenuity of noah's ark
