private international law has long been understood as a doctrinal and technical body of law without interesting theoretical foundations or implications by systematically exploring the rich array of philosophical topics that are part of the fabric of private international law philosophical foundations of private international law fills a significant and long standing void in the legal and philosophical literature the contributions to this volume are testimony to the significant potential for interaction between philosophy and private international law some aim to expand and rethink classical jurisprudential theories by focusing on law beyond the state and on the recognition of foreign law and judgments in domestic courts others bring legal and moral theories to bear on traditional debates in private international law such as legal pluralism transnational justice the interpretation of foreign legal policies and the boundaries of the legal system several engage with the history of both private international law and legal and political philosophy they point to

missed opportunities when philosophers ignored law's transnational dimensions or when private international law scholars failed to position their theories within broader philosophical schools of thought some seek to complete past attempts to articulate the philosophical dimensions of private international law that were never carried through thought provoking and topical this volume displays the varied themes cutting through the disciplines of private international law and philosophy

offers a systematic analysis of Freud's theories examines the effectiveness of the retrospective clinical methods used in psychoanalysis and discusses free association dreams and personality

in the last half century Ludwig Wittgenstein's relevance beyond analytic philosophy to continental philosophy to cultural studies and to the arts has been widely acknowledged Wittgenstein's *Tractatus Logico-Philosophicus* was published in 1922 the *annus mirabilis* of modernism alongside Joyce's *Ulysses* Eliot's *The Waste Land* Mansfield's *The Garden Party* and Woolf's *Jacob's Room* Bertolt Brecht's first play to be produced *Drums in the Night* was first staged in 1922 as was Jean Cocteau's *Antigone* with settings by Pablo Picasso and music by Arthur Honegger in different ways all these modernist landmarks dealt with the crisis of representation and the demise of eternal metaphysical and ethical truths Wittgenstein's *Tractatus* can be read as defining expressing and reacting to this crisis in his later philosophy Wittgenstein adopted a novel philosophical attitude sensitive to the ordinary uses of language as well as to the unnoticed dogmas they may betray if the gist of modernism is self reflection and attention to the way form expresses content then Wittgenstein's later ideas in their fragmented form as well as their ear opening contents deliver it most precisely understanding Wittgenstein understanding modernism shows Wittgenstein's work both early and late to be closely linked to the modernist *geist* that prevailed during his lifetime yet it would be wrong to argue that Wittgenstein was a modernist tout court for Wittgenstein as well as for modernist art understanding is not gained by such straightforward statements it needs time hesitation a variety of articulations the refusal of tempting solutions and perhaps even a sense of defeat it is such a vision of the linkage between Wittgenstein and modernism that guides the present volume

a new scientific discipline acknowledged 65 years after its discovery was the focus of the first conference on neuroimmune biology in Canada the papers presented at the conference and in this volume are dedicated to Dr Hans Selye who is recognized as discovering the existence of a hypothalamic-pituitary-adrenal-thymus axis this axis plays an important role in the adaptation of higher animals and man to various physical chemical biological and emotional challenges the conference and participants also honored Dr Andor Szentivanyi whose opening paper studies on the hypothalamic regulation of histamine synthesis is contained in the introduction to this book Dr Szentivanyi has dedicated his long research career to the clarification of the role of the central nervous system in immune and inflammatory reactions and his experimental results are presented here with an ultimate goal to achieve a more thorough understanding of higher organisms in their entire complexity this book the first in the series *Servall Elsevier Com Locate Series* *Neuroimmune Biology* presents a coordinated and integrated view of the growing body of knowledge rapidly accumulating in this area

a thorough rewriting to reflect advances in typology and universals in the past decade

this book represents the culmination of the author's work to date it incorporates and updates previous articles and adds much new material this book is not nor was it ever intended to be a comparative grammar of either the indo european or the afroasiatic language families it is rather a comparison of proto indo european with proto afroasiatic while this is not the first attempt to demonstrate that proto indo european and proto afroasiatic are genetically related it is the first to use the radical revision of the proto indo european consonantal system proposed by thomas v gamkrelidze paul j hopper and vjačeslav v ivanov moreover unlike previous endeavors this is the first to make extensive use of data from the non semitic branches of afroasiatic the assumptions underlying this investigation of the possibility of the common genetic origin of proto indo european and proto afroasiatic differ considerably from the assumptions made in other works on nostratic the methodological approach followed in this monograph has been one of rigorous adherence to the time honored principles of comparative reconstruction

emotion theory research and experience volume 5 emotion psychopathology and psychotherapy is concerned with the formulation of models of emotion psychopathology and psychotherapy the book focuses on the dysregulation of emotion methods for changing emotion and the experience of emotion the papers contained in the volume are grouped into theoretical works that link emotions to psychopathology and psychotherapy based on concepts derived from evolutionary biology theoretical works that utilizes psychoanalysis in understanding emotions and the transformation of cognitive constructions through psychotherapy psychologists psychiatrists psychoanalysts sociobiologists and students in the allied fields will find the book a good source of insight

those in the counseling profession are interacting more with people from other cultures the u s sphere of influence throughout the world is spreading increasingly we are providing services to clients who are not caucasian or of european heritage and our educational programs have been active in training both domestic students of diverse ethnic backgrounds as well as foreign students these factors combine to contribute to the need for those who provide counseling to understand the elements involved in interacting with a wide spectrum of people this book meets that need by providing a brief synopsis on such topics as common factors values universals cross cultural competence and models approaches and psychological perspectives of human behavior theories of personality the emphasis is on material that relies more on the use of the scientific method and data instead of anecdotal and experiential literature for the reader who is interested in obtaining information from which statements are derived there are references to investigate the material further unlike other book that stress the barriers between counselor and client this book adds the perspective that there are factors that facilitate interactions between the two there are also frequent cross cultural examples in the book to facilitate awareness of similarities and differences in views of human behavior samples of african arab chinese and european american perspectives are represented there is also a relatively large section on applications this consists of such subjects as cross cultural aspects of psychological theories ethics research tests euro american approaches and experiences client characteristics client and counselor interactions and therapeutic techniques many other topics are covered as well students and professionals in the fields of counseling and psychology will find this book to be an invaluable addition to their library

passionate centrism is an important discussion of positive historical judaism and the benefit of holding the

center of judaism that is the conservative movement this book is an important resource for clergy and other congregational leaders and is an excellent product for lecture series

sixteen scholars from around the globe gathered at the oxford centre for hebrew and jewish studies in the bucolic yarnton manor in the oxfordshire countryside in june 2014 for the first now annual oxford summer institute on modern and contemporary judaism the current volume is the fruit of this encounter the goal of the event was to facilitate in depth engagement with the thought of rabbi dr irving yitz greenberg concentrating particularly on the historical ramifications of his theological and public stances consideration was given to his lifelong and complex encounter with the modern orthodox stream of american judaism and the extent to which his teachings functioned as the road not taken this auspicious gathering was most certainly characterized by deep appreciation for greenberg s original outlook which is predicated on his profound dedication to god torah the jewish people and humanity but this was by no means gratuitous homage or naive esteem on the contrary those in attendance understood that the most genuine form of admiration for a thinker and leader of his stature especially one who continues to produce path breaking writings and speak out publicly is to examine rigorously and critically his ideas and legacy we are confident that the creative process that was nurtured has resulted in a substantive contribution to research on the religious historical and social trajectories of contemporary judaism and similarly will engender fresh thinking on crucial theological and ideological postures that will ultimately enrich jewish life this volume offers readers a critical engagement with the trenchant and candid efforts of one of the most thoughtful and earnest voices to emerge from within american orthodoxy to address the theological and moral concerns that characterize our times

marc a krell analyzes the theologies of four twentieth century jewish thinkers hans joachim schoeps franz rosenzweig richard rubenstein and irving greenberg who have constructed theologies based on their interaction with christian thought and culture their work reflects a common attempt to understand the impact of christian culture on the historical events prior to and following the holocaust and to reevaluate the relationship between the two religions in light of a history of theological anti judaism and modern racial antisemitism

what does it mean to understand the law this challenging book discusses whether and how understanding the law is qualitatively different from understanding a different non legal text or linguistic utterance and whether knowledge of a language is sufficient to understand legal content in that language
