the vast canadian north is home to sights unparalleled in the world this unspoiled and untamed land may appear desolate to the undiscerning eye but it in fact abounds with life hardy species of animals and plants that have not merely managed to withstand one of the most unforgiving environments on earth but indeed to thrive within it notable among the north s wildlife is the majestic polar bear long held in awe by people and dreaded by its prey this animal is the planet s largest land predator and truly a testament to the wonders of natural selection it is only befi

It is fitting that this undisputed champion of the arctic and subarctic ecosystems has become an enduring emblem of the great white north. Join celebrated nature photographer Mike Grandmaison on his journey to Churchill in northern Manitoba, Canada, as he ventures into the homeland of the polar bear. Combining superb photographs with enlightening facts on these animals and their environment, *The Polar Bear Lord of the Great North* is sure to captivate anyone eager to take a closer look at these fascinating creatures.

Polar bears and penguins live in similar climates but they never ever meet. What if they had a party together? The penguins of Antarctica write a letter inviting the polar bears of the Arctic to join them at the South Pole to celebrate their longest day of the year. But how will the polar bears get there? It's such a long journey, will they make it in time? What will they bring and what will happen when they arrive? *Dear Polar Bears* combines a playful story of friendship with humorous imagery depicting the differences between Earth's polar regions, with fun facts about penguin and polar bear species, the distance between the poles, and the summer solstice. This will be the most exciting party thrown by penguins you've ever attended.

The Arctic and Antarctica are two of the most extreme environments in the world. They are freezing cold, wind-blown, lip-cracking dry, and pitch black for half of the year. But despite these extreme conditions, many magnificent animals call these icy worlds home. Scientists have been amazed and curious about how animals survive in such extremely cold places with limited food. To find out, they have been traveling to the icy worlds to study these extreme animals. Their hard work has revealed incredible findings.
