assessment core concepts in sociology contains over 90 concepts that represent the discipline coverage includes concepts ranging from aging to capitalism democracy to economic sociology epistemology to everyday life media to risk stigma and much more this vital resource sets out the concepts that underpin the study of sociology and wider social science contains contributions from an international panel of leading figures in the field includes a comprehensive review of the basic concepts that comprise the foundation and essential development of the discipline designed as a concise and accessible resource written for students researchers and wider professionals with an interest in the field of sociology core concepts in sociology offers a concise affordable and accessible resource for studying the underpinnings of sociology and social science

bringing together an international range of highly regarded contributors from the full spectrum of disciplines this is an essential a z reference guide to the full range of sociological thought

sociology as a social science refers to the systematic study of the development structure and functioning of society in the last two centuries sociologists analysed many facets of their own societies in the more general context of observing the causes and consequences of the transition from traditional pre industrial life to modern societies the fundamental postulate of sociology is that human beings act not by their own free decisions taken rationally but under the influence of history and culture and the expectations and demands of others human beings are both the products and the makers of their societies during the 20th century sociologists have been particularly interested in the influence of role status class and power on experience and behaviour in the family and in the community in the factors which contribute to cohesion and conflict in social structure and social stratification and in social problems such as crime drug addiction and domestic violence

this book is a must have for students and lecturers alike students because it gives them model essays on frequently set topics lecturers because it gives them thumbnail overviews and up to date bibliographies on topics they might not cover in their courses it is written without repetition which is quite a feat and provides authoritative statements on the state of the art in medical sociology kevin white reader in sociology australian national university the entries written by a couple of dozen colleagues are concise intelligent and full of both specific examples and theoretical trends in the field key concepts will be a valuable companion to medical sociology texts and anthologies and an important permanent reference work as well phil brown professor of sociology and environmental studies brown university it is intended to provide more depth than a dictionary or than is usually found in textbooks and the authors achieve this objective admirably it provides an excellent and readable introduction to the subject the subject for students whose course involves medical sociology health researchers or health professionals who want to understand more about the social context of their work british journal of occupational therapy written with the needs of today s student in mind the sage key concepts series provides accessible authoritative and reliable coverage of the essential issues in a range of disciplines written in each case by experienced and respected experts in the subject area the books are indispensable study aids and guides to comprehension cross referenced throughout the format

encourages understanding without sacrificing the level of detail and critical evaluation essential to convey the complexity of the issues key concepts in medical sociology provides a systematic and accessible introduction to medical sociology begins each 1500 word entry with a definition of the concept then examines its origins development strengths and weaknesses offers further reading guidance for independent learning draws on international literature and examples is essential reading for undergraduates in medical sociology as well as students taking courses with a medical sociology component

available in paperback 4 color for the first time this economical paperback text is theoretically balanced offers global perspectives shows how sociology is applied to real problems and contains a built in study guide this introduction to sociology uses the three major theoretical perspectives functionalist conflict and interactionist as tools for examining the social world the author uses illuminating examples to show how society works and how human behavior is shaped by cultural structural and institutional forces as in previous editions the eighth edition integrates two themes that reflect contemporary trends in sociology the first is a reemergence of interest in how sociological knowledge can be applied to social problems or to helping people improve their lives the second is the focus on globalization and its impact on societies and cultures as they become increasingly diverse and interdependent the eighth edition offers an expanded focus on the sociology of media and technology especially the newer technologies of the internet and an online electronic world

systematically explains the concepts that have preoccupied medical sociologists from its inception and which have shaped the field as it exists today

social life is in a constant process of change and sociology can never stand still as a result contemporary sociology is a theoretically diverse enterprise covering a huge range of subjects and drawing on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts necessarily evolves and changes this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it in historical and theoretical context explores its main meanings in use introduces relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to the digital revolution environment postcolonialism and intersectionality it will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world

social life is in a constant process of change and sociology can never stand still as a result sociology today is a theoretically diverse enterprise covering a huge range of subjects and drawing on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts necessarily evolves and changes this clear and jargon free book introduces a careful selection of essential concepts that

have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it in historical and theoretical context explores its main meanings in use introduces relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to globalization the environment and intersectionality it will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world

this textbook explores the emergence of sociology as a distinct social science focusing on the evolution of social theories movements and ideas through history it analyses the dynamic relationship between the individual and the larger social forces around them this volume examines the definitive aspects of societies communities and social groups and their intersections with culture political and economic movements and religious institutions it establishes the connections between sociology and other disciplines such as philosophy history political science economics psychology and anthropology to explore the interdependence between different realms of social life the chapters in this book explain and highlight the significance of quantitative and qualitative methods of research in understanding the dynamics of social life drawing from the works of classical social theorists such as auguste comte herbert spencer karl marx emile durkheim and max weber this book traces the development of sociological perspectives and theories and their relevance in the history of ideas lucid and comprehensive this textbook will be useful for undergraduate and postgraduate students of sociology development studies history of ideas sociological thought social theory research methods political science and anthropology

the influential authors significantly update their popular introductory text that invites students to reflect on their lives in the context of the combustible leap from modern to postmodern life the authors show how culture is central to understanding many world problems as they challenge readers to confront the problems and possibilities of an era in which the futures of the physical and social environments seem uncertain as culture rapidly changes in the 21st century the authors have successfully incorporated these nuances with many important updates on race and racism black lives matter the rise of populist politics isis new social media feminist perspectives on sex work trans and non gender conforming identities and more new to this edition new data text box examples photos exercises study questions and glossary terms appear throughout new discussions added of arts based and participatory approaches to research historical changes in the perception of deviance legalization of marijuana islam vs secularism in france new forms of socialization heteronormative and essentialist language related to sex and gender intersections of social class and other identities the prison industrial complex informal sharing economies atheism and more new text boxes include young saudis find freedom in their phones how one stupid tweet blew up justine sacco s life school to prison pipeline india s reproductive assembly line workers feel pain of layoffs like prohibition the fight over guns is about something else and micro aggression and changing moral cultures

this book equips students with skills in critical thinking and theory built around nine central ideas of thought modernity society self religion capitalism power gender race and globalization coverage of both classical and contemporary theorists are included and the text is organized around the discourses of modernity democracy and citizenship the end of chapter exercises build on one another and students are guided to higher order thinking and theorizing skills to formulate their own definitions analyses interpretations evaluations and syntheses of theory
