an expertly woven history and critique of the ideas shaping transportation in the united states
 excruciating traffic jams struggling transit agencies an epidemic of pedestrian fatalities it is
 clear that transportation is not working in the united states and that we need to rethink our
 approach in shifting gears susan handy provides an in depth history of the ideas embedded
 in american transportation policy and the emergence of new ways of thinking that could give
 us better transportation options weaving in bits of her own personal narrative handy gives
 readers a deeper and clearer understanding of our transportation system and the roots of its
 successes and failures handy covers the myriad costs of car ownership the futility of
 expanding highways and the misplaced faith in technological innovation she offers new ideas
 and strategies that can improve the health of our car centric transportation system most
 crucially the idea that communities across the country must create an array of choices for
 daily travel shifting gears asserts that a diverse transportation ecosystem is essential for
 creating more just sustainable communities but getting there will take a dramatic shift in how
 we think about transportation

for the first time early modern streets unites the diverse strands of scholarship on urban streets between circa 1450 and 1800 and tackles key questions on how early modern urban society was shaped and how this changed over time much of the lives of urban dwellers in early modern europe were played out in city streets and squares by exploring urban spaces in relation to themes such as politics economies religion and crime this edited collection shows that streets were not only places where people came together to work shop and eat but also to fight celebrate show their devotion and express their grievances the volume brings together scholars from different backgrounds and applies new approaches and methodologies to the historical study of urban experience in doing so early modern streets provides a comprehensive overview of one of the most dynamic fields of scholarship in early modern history accompanied by over 50 illustrations early modern streets is the perfect resource for all students and scholars interested in urban life in early modern europe

governance and public space in the australian city is a rich and evocative examination of the production and use of public spaces in australian cities in the late nineteenth and early twentieth centuries using brisbane as a case study it demonstrates the way public spaces were constructed contested and controlled in attempts to create ideal city spaces this construction of space is considered not just in the literal and material sense but also as a product of aspirational and imaginative processes of city building by municipal authorities and citizens this book is as much about people as it is about cities uncovering the manner in which perceived models of ideal urban citizenship were reflected in the production and ordering of city spaces this book challenges common narratives that situate public spaces as universal or equalising aspects of the urban sphere exploring three distinct types of public space the streets slums and parks the book questions how urban spaces functioned alongside how they were intended to function in so doing governance and public space in the australian city situates public spaces as products of manipulation and regulation at odds with broader concepts of individual liberty and the rights of people to public space it will be

illuminating reading for scholars and students of urban history and Australian history

In *What Cities Say* Emily Talen provides a wide ranging yet concise synthesis of the fundamental drivers of built form its social and cultural meaning and how we should interpret it including thirty five distinct city patterns and forms Talen develops a language of interpretation to understand the motive and meaning behind the city and its elements by exposing these meanings Talen asserts that we will be in a stronger position to articulate and argue for the kinds of cities we want

Urban segregation is one of the main challenges facing urban development around the globe the usual outcome of many urban development patterns is an unequal social geography with the urban poor living in large clusters that are remote isolated dangerous or unhealthy the result is inequality in a number of dimensions of urban life from deficient urban access services or infrastructure to social isolation neighbourhood violence and lack of economic opportunity this book brings together debates on ethnic and economic segregation combining theory and practical solutions to create a guide for those trying to understand and address urban segregation in any part of the world and integrate ameliorating policies to contemporary urban development agendas
