exploring what the early english protestants came to believe about the afterlife and how they arrived at their positions this much needed book fills a gap in the scholarly literature in surveying the authorised doctrinal works of the english church through the reformation period the progress of eschatological thinking is traced from the earliest days of change to the solidification of the formularies which remain binding across the worldwide anglican church today fresh observations are made on some well known texts such as the books of common prayer articles of religion and official tudor homilies and these are complemented by commentary on surprisingly understudied documents of the period including primers catechisms and the paratexts of the early printed english bibles the result is a fascinating study of the english reformers navigation past both roman catholic and radical anabaptist beliefs and it shows that their arrival at a relatively barren destination was due in part to a complete switch in theological priorities and in part to a fear of the implications of formally adopting some of the highly contested views establishment eschatology will prove to be an important resource for students and scholars of england s early modern religious and cultural history

this accessible book provides an evaluative review of justice at the locus of the magistrates court written by a magistrate this book uses different case studies to aid discussion of the principles of justice and the theoretical process of the criminal justice system in england and wales its case studies consider individual and intersecting inequalities such as sex race class mental health sexuality age and disability speaking to students policy makers and practitioners readers can identify opportunities where justice can be developed as well as the challenges to justice from numerous perspectives which play out in the magistrates court a series of end of chapter questions encourage reflection and one chapter considers recommendations for the future of justice

exploration of the ways in which islam manifested itself in the writings of the seventeenth century

geoffrey holmes's work on english history between the exclusion crisis and the fall of walpole is fundamental to the understanding of the period these essays complement rather than repeat his other work and make a well rounded and characteristically stylish collection

explains the history of england's northern borderlands in the fifteenth century within a broader social political and european context

observations on the principal cities ports and geographical features customs manners and inhabitants of early eighteenth century britain

reprint of the original first published in 1876

choice outstanding academic title 2014 while few detailed surveys of fauna or flora exist in england from the period before the nineteenth century it is possible to combine the evidence of historical sources ranging from game books diaries churchwardens accounts and even folk songs and our wider knowledge of past land use and landscape with contemporary analyses made by modern natural scientists in order to model the situation at various times and places in the more remote past this timely volume encompasses both rural and urban environments from 1650 to the mid twentieth century drawing on a wide variety of social historical and ecological sources it examines the impact of social and economic organisation on the english landscape biodiversity the agricultural revolution landed estates the coming of large scale industry and the growth of towns and suburbs it also develops an original perspective on the complexity and ambiguity of man animal relationships in this post medieval period

focusing on england this study reconstructs the centuries long process of commercialization that gave birth to the modern market society it shows how certain types of markets e g those for real estate labor capital and culture came into being and how the social relations mediated by markets were formed the book deals with the creation of institutions like the bank of england the stock exchange and lloyd s of london as well as the way the english dealt with the uncertainty and the risks involved in market transactions christiane eisenberg shows that the creation

of a market society and modern capitalism in England occurred under circumstances that were utterly different from those on the European continent in addition she demonstrates that as a process the commercialization of business society and culture in England did not lead directly to an industrial society as has previously been suggested but rather to a service economy
