there are many ways of understanding the reality of the world we live in and experience science philosophy art all offer us ample descriptions explanations and intuitions but christian believers go beyond all that for they attempt to understand the origins of the universe in terms of the creation of the world by god revelation tells us what god had in mind when he made the world ex nihilo without presuppositions of any kind god s gift of the universe attempts to present the principal elements and stages of creation theology the doctrine is to be found fundamentally of course in scripture both old and new testament which describes the world in the light of god s word yet since god actually gave existence to the world down to the last detail our reflection on god s word not only explains the reality of creation how it works its nature as science does it also explains how creation came into being in the mind and heart of the triune god and ultimately why god created the world in god s gift of the universe a considerable effort has been spent throughout the book on the christological and trinitarian aspects of creation particularly in the theology of church fathers creation is presented besides in a deeply eschatological key for god created the world for purpose of making his glory eternally manifest the book also considers the way god intervenes in the life of the created world through conservation in being and providence the meaning of time matter and spirit are considered the need for ecological awareness is central one aspect of the mystery of creation that receives special attention is the presence of evil in the world this is of particular importance once we accept that god made the world

whole and entire thus assuming responsibility for the world as it is the origin of evil through the sin of spiritual creatures provides the ultimate though not the only explanation of the mystery of evil particular consideration is given to the reality of original sin
