through poetry this book provides insightful reflections on the attributes of and imperative for human decency in one's personal life and in the process of national development focusing on Liberia the book illuminates aspects of the country's history particularly its war and postwar situation as well as the challenges for

development the book further advocates the need for patriotism peace knowledge integrity and capacity building while conveying a message that development should not be regarded solely by the level of material wealth but also by how it touches human life and whether it protects or undermines the dignity of people

this book traces the influence of collective memory in international relations through time it presents an important and novel theoretical framework for the academic discipline of ir and illustrates the theories in a comparative study of two cases west germany and austria after world war ii

the ability to connect theoretical macroeconomics to the analysis of the economic and political performance of a given country is an essential skill for global investors in country analysis understanding economic and political performance david m currie takes a unique analytical approach to the subject clearly demonstrating the relationship between theory and application in investing practices this valuable book shows how to interpret country performance and provides the practising investor with sufficient background on economic principles to be able to understand and interpret country summaries that appear in business periodicals and other media it covers key topics such as the washington consensus and the three major categories of economic decisions fiscal policy monetary policy and trade policy it includes an important chapter on the political aspect of government performance to give the reader an understanding of economic decisions in their true context country analysis explains the reasoning behind the criteria used in evaluating country risk and economic performance without the need for a sophisticated understanding of economics or mathematics each chapter includes a series of text boxes that include real life examples from business periodicals to reinforce what is discussed and enable readers to practice identifying and interpreting relevant information practitioners making investment decisions in global markets as well as students in mba and other courses will find this immensely practical book a valuable aid to critical decision making

the book is a fiction it deals with legal political economic and social ills plaguing most developing countries that are still grappling with various developmental challenges the book highlights and satirizes all these ills and challenges facing these countries and proffer solutions to some of them there are some developing countries especially in africa where there is failure of leadership this fuels ethnic religious and social upheavals which lead to political instability and even wars in some of these countries there is corruption of monumental proportion which slows down economic development and this may eventually lead to other social problems such as poverty chaos anarchy etc the book politely and humorously point out these problems and the way forward corruption is a global problem but the book also propounds a theory that corruption in large scale by a political

leadership in any country may lead to economic problem that could cause extermination of the poor masses gradually through hunger preventable and curable diseases and that such corruption should be treated as massocide and as crime against humanity by the UNO. The book also highlights the problem of unsuitability of some political arrangement of some developing countries that is also responsible for the political social and economic problems plaguing them and the need to have national dialogue to arrive at the best political arrangement which is indeed the foundation to build on the outcome of such national dialogue should be implemented and use to draft a new constitution. The book humorously highlights the flight of integrity from some of these developing countries due to the bad example from leadership when corruption is the order of the day and there is impunity in that no one is punished even when caught it makes many people to join the bandwagon and hell is then let loose on the society. Some lawyers when well paid by corrupt officials they would do all within their powers and explore legal loopholes and processes to either ensure that such cases drag to eternity in law courts or are never heard due to the legal procedure that presume an accused person innocent until convicted in law courts. The corrupt official going through trial in court would be free to pursue his/her political ambition get elected into any political office and acquire more money to frustrate his/her trial in law court. This book highlights the foregoing too. The book highlights the social ills plaguing many developing countries which reduce most human beings to subsistence level and in such situation higher human ideals are sacrificed on altar of expediency to survive even the zeal to work hard and excel wane in many people as the economic climate favours those with political powers and their cohorts. In such a situation everyone struggles to get to political power through any means it becomes a do or die affair. The book will appeal to the public at large especially those who are interested in finding solutions to the problems affecting the developing countries.

Economics Skills and Practice is aimed at the new 2011 economics diploma programme and is suitable for higher and standard level.
