as this book demonstrates the cradle of the mystery cults of the goddess and of western civilization is the aegean region an area extending from the balkans to crete and from the ionian sea to asia minor the eleusinian mysteries do not originate from old europe or egypt but from the worship of the pelasgian goddess daeira mother earth who preceded demeter and whose cult was indigenous to eleusis as shown here in the mysteries of the goddess the initiates descend into the depths of their psyche perceive the midnight sun transcend duality and achieve cosmic consciousness symbolized by the unity and harmony of the great goddess the pelasgians minyans and minoans the aegean region s prehistoric tribes and ancestors of the mycenaeans and modern greeks share the same cultural heritage continuity and autochthony with the region s proto greek pre deukalion flood inhabitants the book also argues that religious and scientific traces of pre flood knowledge can be discerned in the mysteries and the technical achievements of prehistoric minyan and minoan greeks even from the third millennium the minyans and minoans with their advanced nautical geographic and astronomical knowledge sailed not only the mediterranean but using the atlantic currents had reached the copper mines of northern europe and america

this volume surveys the evolution of the man made landscape in britain over the period of some three millennia before the roman conquest

this introduction to the ancient near east includes coverage of egypt and a balance of political social and cultural coverage organized by the periods kingdoms and empires generally used in near eastern political history the text interlaces social and cultural history with the political narrative this combination allows students to get a rounded introduction to the subject of ancient near eastern history an emphasis on problems and areas of uncertainty helps students understand how evidence is used to create interpretations and allows them to realize that several different interpretations of the same evidence are possible this introduction to the ancient near east includes coverage of egypt and a balance of political social and cultural coverage

the nautical dimension of prehistory has not so far received the attention it deserves it is also too often assumed that early man was land bound yet this is demonstrably not the case recent research has shown that man travelled and tracked over greater distances and at a much earlier date than has previously been thought possible some of these facts can be explained only by man s mastery of water transport from earliest times this book by an acknowledged expert on prehistoric sea craft examines these problems looking at the new archaeological information in the light of the author s nautical knowledge the result is a detailed account of man s use of inland and ocean going craft from earliest times until the dawn of recorded history all forms of evidence are critically assessed from the vessels of ancient egypt to the chinese junk to present of comprehensive picture of the vessels men have built through the ages and of the variety of ways in which they have been used

a cultural history of plants in antiquity covers the period from 10 000 bce to 500 ce this period witnessed the transition from hunter gatherer subsistence to the practice of agriculture in mesopotamia and elsewhere and culminated in the fall of the roman empire the end of the han dynasty in china the rise of byzantium and the first flowering of mayan civilization human uses for and understanding of plants drove cultural evolution and were inextricably bound to all aspects of cultural practice the growth of botanical knowledge was fundamental to the development of agriculture technology medicine and science as well as to the birth of cities the rise of religions and mythologies and the creation of works of literature and art the 6 volume set of the cultural history of plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today the themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants annette giesecke is professor of classics at the university of delaware usa volume 1 in the cultural history of plants set general editors annette giesecke university of delaware usa and david mabberley university of oxford uk

first edition 1996 updated in 2000 with new suggested readings and illustrations title page verso

from the early days of the movies cavemen have been a popular subject for filmmakers not surprisingly since the birth of cinema occurred only a few decades after the earliest scientific studies of prehistoric man filmmakers however were not constrained by the emerging science instead they most often took a comedic look at prehistory a trend that continued throughout the 20th century prehistoric humans also populated adventure fantasy films with the original one million b c 1940 leading the charge documentaries were also made but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged this exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory included are dramas and comedies set in human prehistory documentaries and films and television shows in which prehistoric people somehow exist in historical periods from the advent of civilization up to the present or in extraterrestrial settings each entry includes full filmographic data including year of release running time production personnel cast information and format a description of each film provides background on the prehistoric elements contemporary critical commentary is included for many of the works

landscapes have been fundamental to the human experience world wide and throughout time yet how did we as human beings evolve or co evolve with our landscapes by answering this question we can understand our place in the complex ever changing world that we inhabit this book guides readers on a journey through the concurrent processes of change in an integrated natural cultural history of a landscape while outlining the general principles for global application a richly illustrated case is offered through the mariana islands in the northwest tropical pacific and furthermore situated in a larger asia pacific context for a full comprehension of landscape evolution at variable scales the author examines what happened during the first time when human beings encountered the world s remote oceanic

environment in the mariana islands about 3500 years ago followed by a continuous sequence of changing sea level climate water resources forest composition human population growth and social dynamics this book provides a high resolution and long term view of the complexities of landscape evolution that affect all of us today

some forty scholars examine california s prehistory and archaeology looking at marine and terrestrial palaeoenvironments initial human colonization linguistic prehistory early forms of exchange mitochondrial dna studies and rock art this work is the most extensive study of california s prehistory undertaken in the past 20 years an essential resource for any scholar of california prehistory and archaeology

in the long tradition of the archaeology of the eastern mediterranean bodies have held a prominent role in the form of figurines frescos or skeletal remains and have even been responsible for sparking captivating portrayals of the mother goddess cult the elegant women of minoan crete or the deeds of heroic men growing literature on the archaeology and anthropology of the body has raised awareness about the dynamic and multifaceted role of the body in experiencing the world and in the construction performance and negotiation of social identity in these 28 thematically arranged papers specialists in the archaeology of the eastern mediterranean confront the perceived invisibility of past bodies and ask new research questions contributors discuss new and old evidence they examine how bodies intersect with the material world and explore the role of body situated experiences in creating distinct social and other identities papers range chronologically from the palaeolithic to the early iron age and cover the geographical regions of the aegean cyprus and the near east they highlight the new possibilities that emerge for the interpretation of the prehistoric eastern mediterranean through a combined use of body focused methodological and theoretical perspectives that are nevertheless grounded in the archaeological record
