india's future will be determined not only by economic development but also by a dynamic traditional culture that continues to develop along its own lines sometimes in concert and sometimes in conflict with material enrichment india develops not as one writer has suggested in spite of the gods rather the seed for the creation and the fuel for the sustenance of india's economic boom lay in its traditions and i will argue the animating spirit of its future lies there as well i have neither the expertise nor the access to operate as a political correspondent nor the desire to posture as a political pundit

during eighteen years of research however i have seen what i perceived as a pervasive misrepresentation of recent developments in indian politics more specifically a number of recent books consistently paint the hindu right wing in india as essentially fascist or theocratic my observations show that these claims are untenable and misrepresent a positive development in the history of indian democracy to think clearly about the changes in today s india we require a new model the bi directional banyan tree a symbol borrowed ironically from ancient sanskrit verses pindar claimed custom is king of all and this serves as a succinct expression of the central thesis of this book publisher s website
