françoise massardier kenney's translation of antoine berman's *toward a translation criticism* makes available for the first time in the english speaking world one of the twentieth century's foundational texts in translation studies berman's book published posthumously in france develops an original concept of criticism of translation and a methodology to anchor the practice of this criticism he demonstrates how the work of translation is a critical process as well as a creative one moving away from nonsystematic evaluative approaches that focus on the shortcomings of translations or the normative approaches that study the cultural and literary systems into which the translations are inserted berman applies the notion of ethics he developed in his

earlier works calling for a translation that is nonethnocentric and stipulating that the creativity required by translation be focused on the re creation of the original in the other language without being over determined by the personal poetics of the writer translator berman achieves a rare combination of hermeneutic and stylistic analysis of commentary on the original and analysis of its translations giving the reader access both to the language of the original to the way in which poetry and thought are deployed and to the actual work of translation toward a translation criticism is divided into two separate but interlinked parts each focused on one element of the ethics of translation theory reflection and practice experience in the first part berman presents what he calls a general productive criticism while in the second part he applies the general theoretical principles of this criticism to the analysis of the translations of john donne s work into french and spanish the translation of berman s text is accompanied by an introduction placing berman s thought in its intellectual context and by supplementary notes that complete the bibliographic material presented in the french language version this study is essential reading for translation studies scholars readers interested in the creative literary process in the nature of literary criticism and in the philosophy of language it will also be of interest to john donne specialists
