the first openly gay bishop offers a look at the passions that have shaped his life and ministry which includes service to the poor and marginalized and explores controversial issues including homosexuality and the church

the idea of nicaea in the early church councils examines the role that appeals to nicaea both the council and its creed played in the major councils of the mid fifth century it argues that the conflict between rival construals of nicaea and the struggle convincingly to arbitrate between them represented a key dynamic driving and unsettling the conciliar activity of these decades mark s smith identifies a set of inherited assumptions concerning the role that nicaea was expected to play in orthodox discourse namely that it possessed unique authority as a conciliar event and sole sufficiency as a credal statement the fundamental dilemma was thus how such shibboleths could be persuasively reaffirmed in the context of a dispute over christological doctrine that the resources of the nicene creed were inadequate to address and how the convening of new oecumenical councils could avoid fatally undermining nicaea s special status smith examines the articulation of these contested ideas of nicaea at the councils of ephesus i 431 constantinople 448 ephesus ii 449 and chalcedon 451 particular attention is paid to the role of conciliar acta in providing carefully shaped written contexts within which the nicene creed could be read and interpreted this study proposes that the capacity of the idea of nicaea for flexible re expression was a source of opportunity as well as a

cause of strife allowing continuity with the past to be asserted precisely through adaptation and modification and opening up significant new paths for the articulation of credal and conciliar authority the work thus combines a detailed historical analysis of the reception of nicaea in the proceedings of the fifth century councils with an examination of the complex delineation of theological orthodoxy in this period it also reflects more widely on questions of doctrinal development and ecclesial reception in the early church
