in recent decades there have been significant changes in the way corporate innovation activities are performed they include changes in the innovation process flexibility to outsource certain innovation activities and by far the most important one wider choice in the location of innovation what caught the

most attention of is the trend towards globalization of research and development r d and thereby performance of innovation activities away from the home countries the main concerns relate to the two new trends first the multinational corporations mncs locating strategic innovation activities in some countries outside the industrialized world which can be referred to as emerging economies and second since 2000 some companies from the emerging economies have started entering the global markets with innovative products and services developed through their own r d both these new developments have managerial implications for companies and policy implications for the host countries where such r d is performed as well as for the home countries of the companies further innovative products and services resulting from r d activities in emerging economies seem to better address the needs of consumers at the bottom of the pyramid in other developing countries this book explores and analyzes these issues this research presented in global innovation in emerging economies is applicable to both the industrialized and developing worlds although from different perspectives the former would like to prevent relocation of r d from their countries and the latter want more of r d related investments

background departments specialization and professionalization in american higher education for over half of its history u s higher education turned out mostly cler gymen and lawyers looking back on that period we might be tempted to think that this meant specialized training for the ministry or the practice of law that however was not the case what a college education in the u s prepared young men almost exclusively for from the founding of harvard college in 1636 through the founding of hundreds of denominational colleges in the first two thirds of the nineteenth century was leadership in the community professionalization and specialization only began to take root and then became the dominant mode in u s higher education in the period roughly from 1860 1920 in subsequent decades that seemed to many critics to signal the end of what might be called education in wisdom the preparation of leaders for a broad range of responsibilities professionalization specialization and departmentalization of higher education in the u s began in the last quarter of the nineteenth century
